CLEARFIELD PROGRESS

THE WEATHER
Cloudy and unsettled tonight
and Wednesday; probably light
local rains tonight. Little change
in temperature.

NUMBER 236

VOLUME XVIII

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, OCTOBER 7, 1924.

"Shenandoah" Casts Off On 7000 Mile Journey

**AMERICA'S HUGE AIRSHIP LEAVES
LAKEHURST, N. J. AT TEN O'CLOCK ON
TRIP ACROSS THE UNITED STATES**

Y. Lakehurst, N. J., Oct. 7. (INS.)—The big air cruiser "Shenandoah" cast off from her mooring mast at the navy station here and nosed south west on the start of the longest voyage she has ever attempted at 10 o'clock today.

The "Shenandoah" is scheduled to arrive at Fort Worth some time between midnight Wednesday and dawn Thursday morning, the exact time depending on the winds encountered en route. Weather reports from Washington indicated fair sailing weather en route.

Commander Zachary Lansdowne took the huge dirigible more than 100 miles in a two weeks' trip via the usual route to the Pacific where visits will be made to Reno, Los Angeles, San Francisco, Seattle, Lakehurst to Fort Worth, was the first leg of the trip.

Admiral W. A. Moffett, commander of the third naval district, left at 10 o'clock for the dirigible, which has a crew of 40 men.

At 10 o'clock, N. J., Oct. 7. (INS.)—The "Shenandoah" seemed to breathe a breath of breeze—the "Shenandoah" formerly known as the "Zephyr" was off.

Conditions were ideal for the start of the 17-day trip over 7,000 miles to the west and southwest, the longest the giant cruiser has ever made.

Earlier Zachary Lansdowne had been warned of the lack of wind promised when the "Shenandoah" was ordered to leave the navy station at Lakehurst.

Adrian Woman Dies In Attempt To Start Fire By Use Of Kerosene

Punxsutawney, Oct. 6.—When she attempted to light a fire at her home in Adrian at 5 o'clock Sunday morning, Mrs. Michael Kuzelak, aged 22, was so badly burned that she died at 9 o'clock Sunday night in the Adrian hospital, Punxsutawney.

Mrs. Kuzelak was pouring gasoline onto wood on the stove to make it burn more brightly, when the fluid exploded. She raised the can over her head to throw it away, the stuff running over her clothing, enveloping her in flames. Her screams brought neighbors to the scene who beat out the flames and saved the home from destruction. She was hurried to the Adrian hospital, but her condition was hopeless. The deceased was about to become a mother.

She is survived by her husband, her parents, Mr. and Mrs. John Sheema and the following brothers and sisters, Helen, Anna, Susan, Michael, John and Nicklas, all at home in Adrian.

SPOUTING GAS WELL DELAYS TRAIN NEAR ROANOKE, WEST VA.

Roanoke W. Va., Oct. 7. (INS.)—A newly drilled gas well held up a Baltimore and Ohio passenger train near here today, for more than an hour. The well, which was drilled on the Snyder farm by the Hope Gas Company was so strong that gas spread over the tracks and the engineer thought it dangerous to run his engine past. Drillers finally stopped the flow. The gasser is reported to have a 10,000,000 cubic foot flow.

Split Rail Ditches Nine Cars Of Mail Train Near Harrisburg Today

Harrisburg, Pa., Oct. 7. (INS.)—Nine cars were overturned in a ditch one mile east of here this morning when a southwestern mail train on the Pennsylvania railroad, hit a split rail. Passengers in one of the coaches were shaken up but escaped uninjured.

According to railroad officials, the engine and one mail car passed safely over the split rail, but the first passenger coach left the track, dragging eight others with it. The cars plunged down a little embankment and overturned in the ditch.

HAMILTON-JEFFERSON ASSOCIATION, DEVOTED TO CONSTITUTIONAL IDEALS OF RELIGIOUS FREEDOM, MAKES BOW

UTICA, N. Y., October 7. (INS.)—Laymen of Roman Catholic and Protestant faiths, ninety-five per cent of them Knights of Columbus and Masons, last night launched the Utica Chapter of the Hamilton-Jefferson Association, Inc.

The purpose of the organization is "to promote devotion to and understanding of the purpose of the founders of our republic as expressed in the Constitution of the United States of America and to foster a spirit of tolerance in economics, politics and religion."

The organization was announced as non-secret, non-sectarian, non-partisan.

The idea was given birth in this city and is sponsored by leading citizens. Chapters will be formed in every important city in the country as the movement spreads, it was announced today.

GOSLIN'S HOMER PUTS SENATORS AHEAD IN THIRD

Polo Grounds, New York, Oct. 7. (INS.)—The Giants and Senators lined up as follows this afternoon:

Giants	Senators
Lindstrom .. 3b	McNeely cf
Frishch .. 2b	Harris .. 2b
Young .. 1b	Rice .. rf
Kelly .. lf	Goslin .. lf
Meusel .. lf	Judge .. lf
Wilson .. ss	Bluege .. ss
Jackson .. ss	Ruel .. c
Gowdy .. c	Miller .. 3b
Barnes .. p	Mogridge .. p

Umpires: Quigley, National, plate; Connelly, American, at first base; Klem, National, at second; Dincen, American, third base.

Polo Grounds, New York, Oct. 7.—Behind the inspired pitching of George Mogridge, the Washington Senators arose upon their rear legs this afternoon and everlastingly beat the New York Giants 7 to 4. In consequence the Senators carried the series to a tie at two all, putting it squarely up to Johnson and Nehf to pitch their clubs into lead tomorrow.

Washington had heroes in plenty today. Mogridge was thought to be badly spavined in the pre-game calculations, yet he held the Giants to three hits in the seven and a third innings he pitched.

E. CLAIR DAVIS IS GIVEN DESERVED BANK PROMOTION

The Board of Directors of the County National Bank at its meeting this morning elected E. Clair Davis to the responsible position of assistant cashier. Mr. Davis has been a valued employee of the County National Bank for a number of years and his promotion to the place accorded him by the action of the board of directors this morning is but deserved recognition of faithfulness, attention to duty and ability as a banker.

Mr. Davis' host of personal and business friends will rejoice with him over this recognition of his ability.

ADVERTISING BY RADIO GETS KNOCK AT RADIO MEETING

By ROBERT S. THORNBURGH, I. N. S. Staff Correspondent Washington, Oct. 7.—The cry against monopoly—a plea that the air above be kept free for the use of millions of Americans who, nightly derive the principal entertainment of their lives from the invisible waves that dart through the ether—was raised here today at the opening session of the third radio conference of the United States.

Addressing the conference Hoover said: "It would be unfortunate indeed, if such an important function as the distribution of information by radio should ever fall into the hands of the government."

"It would be still more unfortunate if its control should come under the arbitrary power of any person or group of persons."

The United States government has already launched into investigation of alleged monopolies in the manufacture of radio equipment the Federal Trade Commission having submitted a report on the subject to Attorney Stone. The Department of Justice, it was learned, is making a probe of the situation. No immediate action is anticipated.

Representing radio devotees of America, Secretary Hoover has already made a plea to Congress for adequate legislation to protect the development of what he termed an institution that has "passed from the field of adventure to that of public utility."

Hundreds of letters have poured into the Department of Commerce from users of everything from the little crystal sets to high priced 12 tube outfits demanding that the government exercise its power against illegal use of the air.

Delegates declared that a monopoly in radio communication might cause the use of this utility for distribution of advertising.

Nothing would kill radio quicker than its employment for such purposes, according to Hoover.

For two years radio has been regulated by a voluntarily established "self government" and the experiment, unique in the industrial history of the country has been successful delegates and government officials declared today. The conference will recommend another year of self government or voluntary rule until Congress recognizes radio as it has recognized other communication and transportation means.

COUNCILMEN VOTE TO DISCONTINUE WORK ON MARKET STREET SEWER

Lateness of Season and High Cost Is Reason; Dads Transact a Lot of Interesting Business.

BOULEVARD LIGHTS GO STEP FORWARD

The regular meeting of Town Council held at the Borough Building last evening was presided over by President George M. Rosser and attended by ten of the twelve members of council and much business of importance to the taxpayers was transacted.

It was decided at this meeting to stop construction on the Market street sewer until next spring on account of the lateness of the season and the fact that the cost of same was bound to exceed the estimate of the cost of the improvement.

Treasury Holds \$28,310.70 The Clearfield National Bank Treasurer of the Borough, reported a balance of \$28,310.70 in the treasury. This sum is divided among the different funds as follows:—General Borough fund \$9,550.25. Bond fund, \$15,175.44. Light and Water fund, \$5,662.10. Shade Tree fund, \$57.73; Fireman's Relief fund, \$284.12.

Burgess Collects \$462 Burgess Kittelberger reported 52 arrests and the collection of \$462 in fines and licenses since his previous report several months ago.

New Work Nearing Completion Borough Engineer Hess reported at length on Locust street paving, West Third avenue, West Cherry and Gulch avenue drain, alley paving between Pine and Reed streets, Linden street sewer, river wall above Walnut street, postoffice alley paving and Market street drain. He announced the closing up of nearly all of these projects in readiness for winter.

Leavy Avenue Crossing Borough Solicitor Urey reported that the Pennsylvania Railroad company had been notified to build concrete sidewalks along their property at the foot of Bigler avenue hill and across their right of way and tracks at the corner of Leavy avenue and South Third street. He said the street crossing there was out of line and the Highway Department was directed to change same to conform with the new sidewalk line.

Market Street Drain The Market street drain came in for a great deal of discussion. When this project was advanced it was thought the drain could be laid for approximately \$10,000. Owing to the depth of the drain and the character of the earth through which it is being built it is found to be quite an expensive undertaking. The first section completed extended the drain under Market street thru to the river, making necessary a tunnel under the street for a distance of more than 150 feet. The council was somewhat divided on the question of continuing the work at this time. Chairman Adams, of the Sewer Committee, who has given a great deal of his time the past summer to sewer work and Councilman Poorman favoring keeping on with the work until the amount of the original estimate was expended, but the other eight members present voted to suspend operations till next spring after the sewer is completed to the last opening made in front of the property of Miss Ella Shaw. The total length of the drain is 1900 feet and a little more than one-fourth of it will have been completed when the point named as a stopping place is reached. It will be regretted that this drain cannot be completed this year as it is one of the most needed improvements in Clearfield, as Market street

PENNSY-GRAMS

Philadelphia—Joseph Colombo, 11, used an axe to break open a three-inch shell he found in a dump near his home. The shell exploded and burned him severely about the body. He is in a critical condition at Flower hospital.

Doylestown—A snowplow was a part of the bootleggers outfit found near Jamison, in Bucks county, when police raided and found a large still. The snow plow, according to police, was used to prevent the roads from blocking up in winter and forcing the plant to suspend operations.

Harrisburg—Fire completely destroyed the Kuehl Supply company last night causing a loss of more than \$25,000. Defective wiring is believed to have been the cause. A row of frame dwellings next to the burning building was threatened for a time.

Harrisburg—That deer are so numerous they form a menace to the Agricultural department of South mountain, is the complaint of scores of farmers to the State Game Commission. Grain fields and orchards have been ruined by the animals, residents declared. A personal inspection of the damage done will be made by the Commission Thursday.

Harrisburg—Twelve men were added to the State police today. Having successfully passed mental and physical examination. All but three are former army men. Three men each have been assigned to the Greensburg and Wyoming troops and two each to the Pottsville, Butler and Lancaster troops.

Harrisburg—Gov. Pinchot has designated the week of Oct. 5 to 11 as fire prevention week. The proclamation cites the fact that \$500,000,000 damage was done by fire in 1923 and in addition there was serious loss of life.

Rochester—Chief of Police John Luttenuer of Neville Island, was searching today for the body of a boy, believed to be Lewis Armstrong, 14, the missing, Coraopolis high school boy. Four men in a house boat reported to the Rochester police that they saw a boy's body on the sand bar of the river near Lawndale dam last night, but were handicapped by darkness in trying to rescue the boy.

Coraopolis—This town is without a police chief today. The borough council dismissed Chief of Police John J. Mincher last night and also accepted Patrolman James McClure's resignation. Mincher declared he was giving no reason for his dismissal. President W. G. Weimer of the council said Mincher was ousted "for the health of the service."

Pittsburgh—Among the eight prisoners taken to Atlanta, Ga., today by U. S. Marshall James C. McGreger to serve various sentences at the federal prison there, were James P. Kirk and E. J. Rappold, Erie physicians, formerly of Clearfield, charged with violation of the Harrison narcotics law. They were sentenced to one year and two years respectively.

Dr. Fosdick Resigns As Assistant Pastor; Refuses To Become Presbyterian

New York, Oct. 6.—The Presbytery of New York received today, but delayed action upon, the resignation of the Rev. Dr. Harry Emerson Fosdick, the Baptist preacher of modernist ideas, who for five years, has held an assistant ministership in the First Presbyterian church of this city.

The resignation was Doctor Fosdick's answer to the request of the Presbytery that in accordance with a ruling of the General Assembly five months ago, he should renounce his Baptist membership and become a Presbyterian or relinquish his associate pastorate.

A special committee of the Presbytery, headed by Dr. Edwin Whittaker Work, communicated the decree of the General Assembly to the Rev. Dr. Fosdick and today read before the Presbytery the minister's answer ending in resignation.

At the committee's recommendation the case was placed in the hands of the First church for further investigation and deliberations, with instructions to report to the Presbytery by November 10. It is expected that on that date the First Church which has stood by the Rev. Dr. Fosdick for two years, while their battle between fundamentalists and modernists raged around him, will make known whether it purposes to accept or reject the resignation.

LESSON NO. 1 THE PROPER USE OF LIGHT

Have you ever gone into a room at night, and felt that there was too much light in the room? Perhaps it was because you came in at the dark, and your eyes were dazzled by the light. If this feeling of dazzle persisted, there was surely something wrong with the lights.

It was not too much light, however. For in that room there was certainly not more than one hundredth part of the light that we find during a clear day on the shady side of a tree or building. Nor one-fifth hundredth part of what we are accustomed to find in the bright sunlight. Surely, then, the trouble in that room was not too much light!

be quite disagreeable and might not be very good for our eyes.

In order to protect our eyes, all lamp bulbs should be shaded in such a way that we cannot see the lighted filament or wire inside the bulb and so that we do not even see a very bright spot in the shade directly in front of this lighted filament. When lights are shaded in this way, it is hardly possible to get too much light for comfortable vision. Sometimes the use of frosted bulbs will help to remove annoying glare.

Whenever you hear someone say that there is too much light in a room, it is safe to say the real trouble is not too much light, but rather that there is too much dazzle.

2 to 5 Units of Light 50 to 100 Units of Light 500 Units of Light 5,000 Units of Light

GLARE
The trouble in the room was too much glare—too much dazzle. Any very bright light which shines directly into the eyes produces glare and eyestrain. This becomes more and more unpleasant as the light stands out with greater contrast to the darkness of the background.

Lights for use in the home have improved quite rapidly during the last two or three generations and as soon as a better light was invented, we just put the new one in place of the older one. First the candle was replaced by the oil lamp, and this in turn by the gas light. When the modern electric light bulbs or incandescent lamps were invented and used in homes instead of gas, they gave more light and were much brighter than anything we had before.

A bright light burning out of doors in the day might not even be noticed, and it would not cause glare because there would not be enough difference between the brightness of the light and the brightness of the daylight. However, at night this same light would

and glare and that the lights are not properly shaded.

ANOTHER KIND OF GLARE

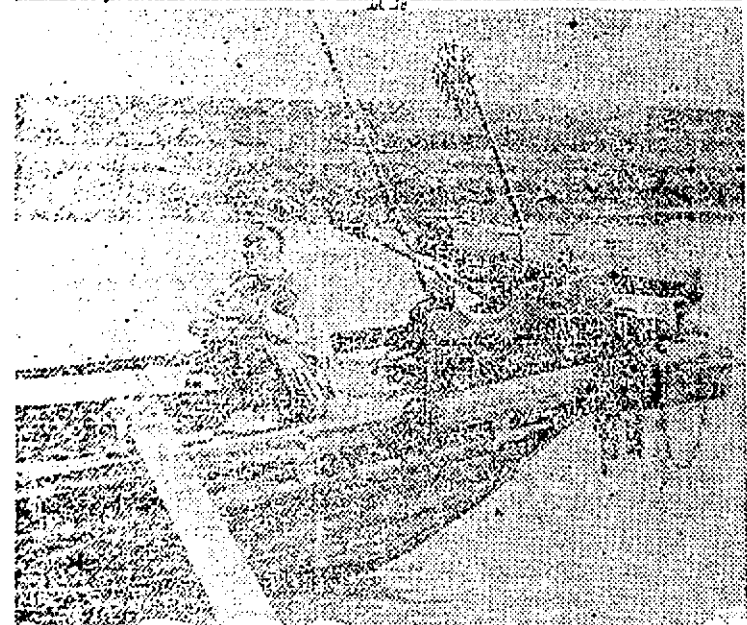

How tired our eyes become after a day on the water, or when the sun shines brightly on the snow covered ground. Do you remember the mischievous boy in the classroom who caught a beam of sunlight in a mirror and reflected it into your eyes? It made you start. These things are particularly annoying because our eyeballs give us no protection from this indirect or reflected light which comes in from below the level of the eyes.

This kind of glare must also be guarded against if we are reading or writing on glossy paper. The light should come over the shoulder, or be directed to the page at such an angle that a beam of light from the lighted filament of a lamp bulb cannot be reflected up into our eyes. Lamps placed in front of a mirror and shaded by shields should not be placed in such a position that the mirror will reflect the image of the lighted filament of the lamp bulb back into our eyes and cause this kind of glare.

The two lower pictures show how to improve bad lighting. The man at the left shaded the light and changed his position. The man at the right changed the shade on the table lamp. The picture in the center shows a good arrangement for reading.

A Chinese Man o' War

China's inland navy is playing an important part in the present fighting. Little canal gunboats, like this one, are plying up and down the rivers. They are not very imposing but they often come in handy.

GOSLIN'S HOMER

(Continued from Page One)

Wilson doubled to right, scoring Young, but Meusel was out down at the plate. Harris to Ruel, averting impending disaster.

Gowdy singled down the right field line to open the ninth and sped to third on Rice's carefree return. He scored on Lindstrom's hit after Bentley had fanned.

Frisch then walked but was forced at second on Young's tap to Judge and brother Kelly then obliged by striking out.

FIRST INNING: Senators. McNeely out, Jackson to Kelly. Harris fanned. Rice out, Frisch to Kelly. No runs, no hits, no errors.

Giants. Lindstrom walked. Frisch got a great ovation on his work yesterday. But he went out, Harris to Judge, and Lindstrom took second. Young up. Lindstrom scored and Young reached 1st safely on Bluege's wild throw to first base. Kelly flied to McNeely, Young taking second after the catch. Meusel walked. Wilson out, Harris to Judge. One run, no hits, one error.

SECOND INNING: Senators. Goslin singled over second. Judge flied to Kelly. Bluege beat out an infield hit down third base line, Goslin going to second. Ruel out, Lindstrom to Kelly. Goslin going to third and Bluege to second. Miller out, Lindstrom to Kelly. No runs, two hits, no errors.

Giants. Jackson flied to McNeely.

Gowdy out, Harris to Judge. Barnes walked. Lindstrom singled to right.

Barnes stopping at second. Frisch popped to Harris. No runs, one hit, no errors.

THIRD INNING: Senators. Mogridge fanned. McNeely singled to left. Harris singled to right, McNeely going to second. Rice out, Frisch to Kelly. McNeely going to third and Harris to second. Goslin hit a homer

into lower right field stand, scoring McNeely and Harris ahead of him. The crowd here showed that it was with the Senators. Judge out, Kelly to Barnes. Three runs, three hits, no errors.

4TH INNING: Senators. Bluege singled to left. Ruel sacrificed. Barnes to Kelly. Bluege going to second. Miller flied to Meusel. Mogridge fanned. No runs, one hit, no errors.

Giants. Wilson flied to Goslin. Jackson out, Miller to Judge. Gowdy flied to Goslin. No runs, no hits, no errors.

FIFTH INNING: Senators. McNeely singled to left. Harris singled to left, McNeely going to third. McNeely scored and Harris went to second on a wild pitch by Barnes. Rice popped to Lindstrom. Goslin cheered as he comes to bat. He swung at the first, then singled to left, scoring Harris. It was Goslin's third hit. Judge flied to Wilson. Bluege up. Goslin out trying to steal, Gowdy to Frisch. Two runs, three hits, no errors.

Giants. Terry batting for Barnes. Cut, Harris to Judge. Lindstrom beat out an infield hit to third. Frisch flied to Rice. Young forced Lindstrom at second; Harris to Bluege. No runs, one hit, no errors.

SIXTH INNING: Senators. Baldwin pitching for the Giants. Bluege flied to Frisch. Ruel out, Jackson to Kelly. Miller flied to Wilson. No runs, no hits, no errors.

Giants. Kelly hit a double to deep right field. Meusel out, Bluege to Judge. Kelly going to third. Wilson up. Kelly scored on Wilson's out. Bluege to Judge. Jackson out, Bluege to Judge. One run, one hit, no errors.

SEVENTH INNING: Senators. Mogridge fanned. McNeely doubled to left. Harris flied to Wilson. McNeely going to third after the catch. Rice flied to Meusel. No runs, one hit, no errors.

Giants. Gowdy out, Harris to Judge. Harris making a brilliant stop. South-

worth batted for Baldwin. Southworth reached first safely when Miller fumbled a grounder. Lindstrom forced Southworth at second. Miller to Harris. Frisch out, Harris to Judge. Harris making another sensational stop back in right field. No runs, no hits, one error.

EIGHTH INNING: Senators. Goslin up. Deane pitching for Giants. Goslin singled to center. His fourth hit of the game. Judge singled to left. Goslin going to third and Judge to second when Meusel fumbled the ball in left field. Bluege singled to left scoring Goslin and Judge. Bluege went to second on the throw to the plate. Ruel flied to Kelly. Miller flied to Frisch. Mogridge fanned. Two runs, three hits, one error.

Giants. Young walked. Kelly flied to McNeely. Meusel walked. Wilson up. After pitching two balls to Wilson, Mogridge was taken out by Harris who called Marberry to stop the Giants' onslaught. Wilson doubled against left field wall, scoring Young, but Meusel was thrown out at the plate. Rice to Harris to Ruel. Jackson out to Judge, unassisted. One run, one hit, no errors.

NINTH INNING: Senators. McNeely fanned. Harris out, Jackson to Kelly. Rice out, Frisch to Kelly. No runs, no hits, no errors.

Giants. Gowdy singled to right and went to third when Rice made a wild throw to the infield. Bentley up, batting for Deane. He fanned. Lindstrom up. Gowdy scored on Lindstrom's single over second base. Frisch walked. Young forced Frisch at second, Judge to Harris. Lindstrom taking third. Kelly fanned.

SENATORS WIN, 7 TO 4.

Caterpillars Travel in Companies.

The caterpillar, according to naturalists, knows that there is safety in numbers, and whole companies may be found feeding side by side while keeping a sharp lookout for their bird enemies; but when a caterpillar is by himself he scarcely dares move for fear of attracting attention. Even when he is obliged to change his skin he does not venture to leave his old coat lying around. The moment he takes it off he eats it.

Surprise!

Mr. and Mrs. F. J. Quirk entertained Mrs. Charles Burke at their home on Hawthorne Ave., Portland, Ore. The affair was informal and impromptu. Mrs. Burke lost control of her car while turning to look behind her and stepped on the gas instead of the brake. As a result the machine climbed upon the Quirks' front porch at high speed.

Crab's Keen Watch for Enemies.

The fiddler crabs of the Philippines have remarkably sharp eyes, and may be seen standing for perhaps fifteen minutes at a time quite still, scanning the landscape for signs of their chief enemies—snakes, skunks, frogs, toads and fishes. Noise will not disturb them, but they beat a hasty retreat home if anything moves near, or boldly stand and frantically wave the big claw, being particularly angry if a lady crab comes near.

Oil Fly Ravages Italy.

Italy's plague is the oil fly, which devastates the olive yards. In southern Italy this insect has done \$25,000,000 worth of damage within the last 12 years.

"Gusher" Day Never Lasts

There is a certain class of people with whom the gushing person who gets a hearing, but this is mostly because that particular class enjoys flattery, an art in which the gusher is particularly skillful. But, taken on the whole, human nature appreciates frankness and sincerity. And these two qualities give to the eye an expression which is not to be overlooked in the seer after beauty.

THIS BRIGHT BABY GIRL

Brought Joy to Home. Mrs. Lydia E. Pinkham's Vegetable Compound

Secotia, Pa.: "I never felt like working, and when I would try to do any thing, I would get so fatigued that I would drag around all day long. At times I would have terrible pains and was a great deal of trouble to my family. I was in this condition about a year when I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers. I bought a bottle and took it. I heard different women say it was good for women's troubles, and my aunt thought it would help me, so I had helped her. So I took the Vegetable Compound and it brought things right, and I was in good shape before I knew it. I believe it helped at birth, too, as with both my other babies I suffered a great deal more than with this one. I thank you for this medicine for the good your medicine has done me. It has surely made our home a happy one."—Mrs. ROBERT PRICE, Secotia, Pa.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 95 out of every 100 report they were benefited by its use.

Now—Thousands in Use

Now, thousands of Rollin cars have been in the hands of critical users for nearly a year.

The record is astonishing!

This car has performed way beyond all expectations and more than bears out every single claim originally made for this remarkable automobile.

Rollin claimed more up-to-dateness—and gave it to you!

Rollin claimed greater economy—and gave it to you!

Rollin claimed easier riding qualities—and gave them to you!

Rollin claimed vibration elimination—and gave it to you!

Unless you select the advanced Rollin—you cannot get all of the fore-mentioned modern qualities.

No other car in the world, at any price, has the following combination of advanced features:

European Type Motor
4-Bearing Crankshaft
Force-feed Lubrication
25 to 30 Miles Per Gallon of Gasoline
Balloon Tires
4-Wheel Brakes
Transverse Rear Spring

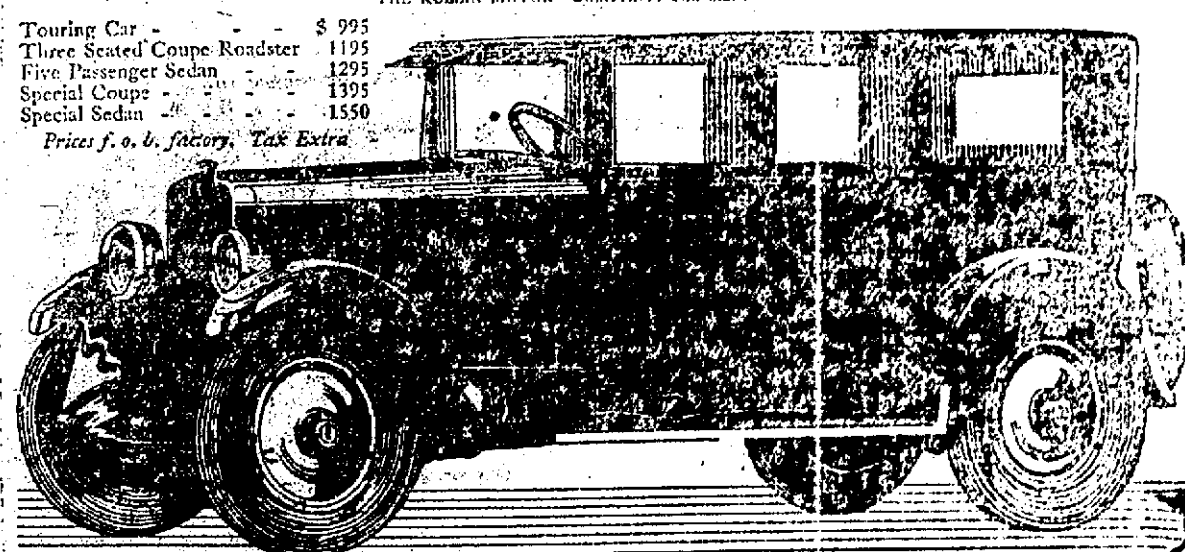

Remember this car was designed and is being manufactured by Rollin White—one of the industry's foremost automotive engineers.

ODDS AND ENDS AND THINGS

By J. D. C.

Fire Prevention Week started yesterday and it is observed by schools, churches, fire departments, chamber of commerce, railroads and other organizations throughout the country. The week pivots around Oct. 9, the fifty-third anniversary of the great Chicago fire. In each of the last three years, American property worth half a billion dollars has been consumed by fire and about 15,000 persons have been burned to death. Most of these victims were women and children.

President C. H. Markham of the Illinois Central Railroad in an address at the National Bankers' Convention in Chicago last week, said the railroads were "America's greatest employers." He said almost as fast as they took in the billions they had to pass them out, thus irrigating most of the big industries in the country.

For instance, in wages that largely passed on to the retail trade, the roads spend directly \$3,000,000,000 a year, almost as much as is handed out by the whole United States government. In buying materials, they spend \$2,000,000,000 a year, at least \$1,000,000,000 of which must be for other wages and therefore must bring additional trade to retailers.

For these giant industries, which at the foundation of national prosperity, the railroads are as important as they are for the retail trade. In a year they buy and use \$600,000,000 worth of fuel, mostly coal. They purchase nearly a third of the iron and steel output of the United States. Coal and iron and steel and lumber. Any business man can figure for himself what an industry does for the country when it uses such colossal amounts of these four fundamental products.

In the second place, Mr. Markham said that, besides stimulating production in other lines, the railroads produce, are producers—just as producers as are the farm horses that draw the harvests from the fields to the barns, or from the barns to the elevators or freight houses.

It is interesting to know that in the convening of last week's criminal court Judge Chase has assigned Clearfield county law violators totaling more than \$25,000. Under the parole system enforced by the court it is expected, that at least 80 per cent of these fines would be collected within the coming two months.

There are just 66 prisoners in the Clearfield county jail at present. It is not a night to see this army of lawbreakers in the jail. The prisoners are in the jail, but they are not in the jail.

One fourth of the total number of hunters expected to take out hunting licenses in Clearfield county this year had appeared at the County Treasurer's office up to noon today and took out the coveted permits. The total number of licenses issued up to this time was 3700. Each hunter is asked to put up \$1.25 for the privilege of hunting during the six weeks extending from November 1st, when the fall game season starts, until Dec. 15th, when the hunting season closes on all game.

Moonshining and bootlegging is no doubt a gainful occupation—for a while—and evidently appeals to those who engage therein—until they get caught—but both branches of this illicit trade are fast becoming extra hazardous in Clearfield county, judging alone by a perusal of Criminal Court records of the county the past few months.

Clearfield county people, or many of them at least, are a bibulous lot, and there would not be a market for the wares of moonshiner and bootlegger. In consequence thereof the number of illicit liquor peddlers getting into the criminal courts this winter appears to be increasing, rather than diminishing, although exceptional activity on the part of the local authorities in the eastern and southern sections of the county has, since May last, helped the DuBois end in filling the jail with liquor law violators.

Since May term of Criminal Court more than fifty liquor law violators were arrested and placed under bail for court. The majority of these cases were disposed of at September term of Criminal Court, together with a number of other cases continued from May term of this year. A check-up or summary of the work of September term of Criminal Court shows that 78 liquor law violators were disposed of. In disposing of these illicit vendors Judge Chase sent 42 of them to jail,

their sentences totaling 14 years and 10 days. The fines assessed in conjunction with the jail sentences, and where a jail sentence was not imposed on account of the minor grade of the crime or extenuating circumstances, amount to \$14,110, all of which, under Judge Chase's parole system, will have to be paid before the offender in each case is allowed to get out of the clutches of the law.

Yes, moonshining and bootlegging has its uncertainties and disappointments somewhat akin to the ups and downs of an honest man's life, plus the jail sentence.

In the Courts

Three suits growing out of appeals from the award of viewers to assess the damages to as many different farms in Bloom township by the building of the Grampian-DuBois state road, and scheduled for trial this week were all continued on a point raised by County Solicitor A. M. Liveright, who appeared on behalf of the county to defend the suits. It developed during the taking of testimony in the case of Warren Charles that some change had been made in the plans after the work was started and the cases were all held up until the responsibility for such change can be determined by a perusal of the St. to Highway Department files at Harrisburg.

The plaintiffs were Warren Charles, Sidney Smith and Joseph Korb.

Two courts are working today. Judge Chase, in the court room, is hearing the case of Daniel Bauman vs. the Robinson Coal Company and A. J. Peterson. Suit is brought in this case to collect minimum royalty at the "Rottentop" mine above O'Shanter. The attorneys are Kramer & Kramer for plaintiff and Liveright & Chase and Miller & Hartwick for defendants.

Judge Reed is holding his court in the Arbitration Room and is hearing the case of Joseph Cairns against Spencer Bros. of DuBois. This suit is the result of an accident which occurred on the state road at Salem, near DuBois, in November, 1920, and in which young Cairns was run over by a truck owned by the defendants and had his leg broken in three places, besides receiving other injuries. The attorneys involved are Bell & Blockbank for the plaintiff and Pentz & Pentz for the defendants.

ADVERTISING BY RADIO GETS KNOCK

(Continued from Page One.)

recommendations for an official study of non radio interference problems.

A debate was anticipated on the assignment of bands in the high frequency class, from one to ten meters employed for point to point broadcasting. The technique of use of short wave lengths has been developed since the 1923 conference. Individual communication, transmission of news between branches of

ECZEMA

You will be compelled to admit that the results of S.S.S. are really amazing!

MANY people imagine that eczema or tetter needs only some external application on the skin in order to get relief. This is because the attention of the sufferer is so violently directed to the intense burning and itching which accompanies this disease. Try as they may—permanent relief will never be theirs until the disease laden blood is thoroughly cleansed.

We know there is one thing that cures eczema and that is more red blood cells! S.S.S. builds them by the million! You can increase your red blood cells to the point where it is practically impossible for eczema to exist. We know that as blood cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it. Skin eruptions, eczema, with all its fiery, skin digging torture, and its soul-searing, unrelenting itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting giants of Nature! S.S.S. builds them by the million! It has been doing it since 1826.

S.S.S. is one of the greatest blood-cell builders, blood-cleansers and body strengtheners known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. S.S.S. contains only vegetable medicinal ingredients. Because S.S.S. does build red blood cells, it cures eczema, clears the skin, builds firm flesh, fills out hollow cheeks, and gives you that more up and going appearance.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Births

Born, to Mr. and Mrs. Isaac H. Robinson, at the Clearfield Hospital on Thursday last an 11lb. son. Mother and son are getting along finely and so is Ike, who is tickled to death over the new arrival.

Born, to Mr. and Mrs. A. Wright Bigler at their home on South Front street Monday morning, a daughter. The new arrival makes "two pair" in the Bigler family "hand."

EMIGH MAN DIES HERE

Harry B. Wyse, of Emigh, Pa., died in Clearfield, at the Bowles Hospital, after a short illness, October 4, at 1:30 a. m. He had been operated on for appendicitis and other ailments, but was unable to survive the ordeal. He was a member of a highly esteemed family, well known here and elsewhere. He leaves a wife, "Zoe" by name, a mother, Mrs. Jane Wyse of Fagardman, Pa., four sisters and four brothers as follows: Mrs. F. H. Brennan, Bradford, Pa.; Mrs. A. G. Robinson, Boardman; Mrs. George Allen, Force; Mrs. John Weiss, Lockport Station; J. B. Wyse, Detroit; Robert Wyse, DuBois; James Wyse, Summerville; and William Wyse, Emigh.

The many friends of the family deeply regret the unfortunate happening, and hereby express their sympathy.

The funeral will take place today, (Tuesday, October 7) from his late home, and interment will be at North Barnsboro cemetery.

He was a member of the K. K. K. and they will officiate at the services. With undertaker McMillen in charge.

syndicates of related newspapers, were time and many other uses of technical character come in the short wave class.

"The basis of a practical solution of the ever present interference problem is a sound allocation of frequency or wave lengths" Dr George K. Boigess, director of the United States Bureau of Standards told the conference.

WATCH FOR THIS FORD COUPE

A new Ford coupe, bearing license No. 936-493, was stolen from front of the Presbyterian Church at Clearfield on Sunday evening. Any information will be thankfully received Telephone The Progress office. The coupe was the property of Alex Hynd of Old Town Road.

To a Lady

Who refuses to use clay

By Edna Wallace Hopper

A lady writes me that my beauty helps have brought her wonderful results, but she adds, "It is too much trouble to use clay!"

"Too much trouble!" In my stage work and in these efforts to help women I work 15 hours a day. Yet I would rather make three meals than miss my clay.

"Too much trouble!" Yet see what clay has done for me. Mine is a grand Edna Wallare mother's age, yet I enjoy a Hopper debutante's complexion.

Let me send you a test of my White Youth Clay. It is not like the crude and muddy clays so many have employed. It is white, refined and dainty—the last word in facial clays. And it combines in one product many superlative helps.

My Youth Clay purges the skin of all that clogs and mars it. It removes the causes of blackheads and blemishes. It brings the blood to the skin to nourish and revive it. The result is a rosy after glow which amazes and delights. It firms the skin, combats lines and wrinkles, reduces enlarged pores, eliminates surplus oil.

Many women seem to drop ten years with one application of this clay. To countless women it is bringing priceless benefits—new beauty and new youth. Are such results not worth to you a few minutes twice a week?

Clay is a beautiful essential. Famous beauties have for ages used it. No woman can hope to look her best without it, or to keep her youth as I have. You can recognize clay users in every circle by their beautiful complexions.

Mine is a super-clay—a new type clay—based on 20 years of scientific study. I have placed it with all drug stores, all toilet counters, so you can get it. The cost is 50 cents and \$1. You will thank me for it—always—when you learn what it means to you. I will gladly mail sample if you mail this coupon.

Trial Tube Free

Edna Wallace Hopper, 550 536 Lake Shore Drive, Chicago. I want to try White Youth Clay.

UNEMPLOYMENT

Unemployment is not an occasional thing. It is an ever-present fact. The Russell Sage Foundation finds that even in the best times there is a good deal of it, and that, taking good and bad times together, there is an average of several million men and women always out of work—10 or 12 per cent of the total number of workers.

The "seasonable occupations" are responsible for a good deal of it. Every year there are 1,000,000 to 6,000,000 persons out of work for weeks at a time, and sometimes for months. Then there come years now and then when many millions of people, in many industries, are unemployed for so long that they almost despair of ever finding jobs again and getting their debts paid.

This is the great tragedy of modern industry. Along with all its blessings it brings that tremendous problem of unemployment. Industry demands specialization of jobs and the assembling of many workers in small areas, and when the factory shuts down there is often nothing else the workers can do to earn a living. Many industries are still largely at the mercy of the weather, or of a seasonal demand, and cannot adjust themselves to other lines during the off-season.

Thus millions of workers are kept poor, because they are not allowed by this strange industrial system to work steadily. And thus what they produce costs the consuming public more than it would if they could work steadily through the year, and year after year.

Society as a whole has to support its idle members somehow or other, and gets ahead slowly just because they are idle. This is perhaps the biggest problem of statesmanship in the world.

INVESTMENT EDUCATION

The Investment Bankers' Association of America has decided to embark upon a tremendous advertising campaign costing approximately a quarter of a million dollars. By this means the bankers hope to make more widely known the difference between good and bad securities and the value of sound investments. It is to be a campaign of education against the fake promoter.

The carping critic may say, truly enough, that the bankers stand to gain largely from this campaign and that it is therefore not a wholly altruistic plan. But what of it? If the bankers do gain by attracting more patrons to their banks and to the sound investments they offer, the patrons gain, too. If one has \$1,000 to invest, how much better to spend it through safe and honest channels where both parties to the investment will profit than to spend it through unsafe channels where only the fake promoter profits!

Education of the public in this regard has long been recognized as almost the only way to protect the gullible throng from their own foolishness. Federal authorities have pointed out again and again that postal officials are handicapped in dealing with fraudulent schemes to get people's money because often they cannot detect the fraud nor act until after money has been lost and complaint made by the loser. Effective blue sky laws will help a great deal. But they alone cannot do the work.

For that matter, neither will education and publicity do it. All together, however, should make a big improvement and reduce considerably the 500 to 1,000 million dollars now estimated as lost to the blue sky promoter annually.

IF WE COULD PERSUADE

every person in this community to take ten per cent of his salary every pay day and put it to work in an interest bearing account, we would revolutionize the habits of those whose carelessness is depriving them of prosperity.

Many people, however, will go on saving just what little is left at the end of the month, or nothing at all. But perhaps you will be one of those who will profit by the suggestion to pay yourself first. One dollar will start your prosperity account at this bank.

CLEARFIELD TRUST CO.

Progress Editorials for Women

THE PERSONAL TOUCH

By FLORENCE DAVIES

A friend just back from a visit to what some people are pleased to call Henry Ford's town imagines she has a little joke on Henry.

"It is queer," she mused, "but I visited a woman whose windows look down on the rolling lawns of the younger Ford's gardens. Now, it seems that young Mr. Ford is president of the company that makes tractors. But there is his gardens were two men laboriously pulling rakes over the turf in the same way that lawns were raked years ago. I guess we haven't progressed so fast, after all," laughed this woman. "At least when Henry wants a lovely lawn he can't beat the hard method with all his mighty inventions which have put a sand-acre ranches into cultivation in a jiffy."

The woman, of course, was right. A tractor that would have cultivated the ground in a two mile furrow in an hour would have ruined the velvety smoothness of that lawn, which only goes to show that science hasn't quite yet found a way to take the place of the human hand.

Some people worry a good deal about living in a machine-made world. They may save their worry. There will never come a time when the human touch won't have a place in the world, whether it's a matter of raking lawns or running factories.

Machines, it is true, do much of the work which was once done by hand. But every machine must be manned

by a skilled worker. With all the machines, the demand for the personal touch is by no means exhausted. In every business and factory there is a place for more people who think and for more people who add the individual touch.

The chances are that it will be a good many centuries before our best lawns are perfected in any but the old fashioned way, planted and raked and soved by gardeners who work with care.

Machinery, all of it, whether it's the kind that runs our presses and pulls our trains, or merely the kind that every woman has in her kitchen, is only the servant of us all, and will never take the place of individual effort.

Even the most perfect talking motion-picture machine which could ever be invented will always have a little to be desired, "and it is just that little which counts," says a writer in a current magazine. "Booth in Hamlet, Mrs. Siddons in Lady Macbeth—they simply can't be transmitted by a machine," says this observer. "For what makes drama real is the slight variation that comes with each performance."

It is a comforting thought, this, to the human race. With all our imperfections, with all our halting effort, the world always needs just the particular thing which we as individuals can do. No machine, however skillful or magical, can ever take the place of the personal touch which you and I can give in our chosen fields of endeavor.

The Frost Is On the Pumpkin and the Mud Is On the Boat!

The Atlantic dealer's chart, carefully worked out by Atlantic engineers, assures you the proper type of oil for your car—Atlantic Medium, Heavy, Special Heavy or Polarine.

Up long, steep hills in second gear . . .

Watch your motor oil!

It's during those occasional emergencies when you put your motor to the supreme test that the danger from low-heat-resisting oil is greatest.

Hill climbing, for instance. The high speed of the motor when in the lower gears, the throttle wide open, several thousand hot, heavy charges of gasoline burning per minute—these often spell ruin or virtual destruction to ordinary motor oils.

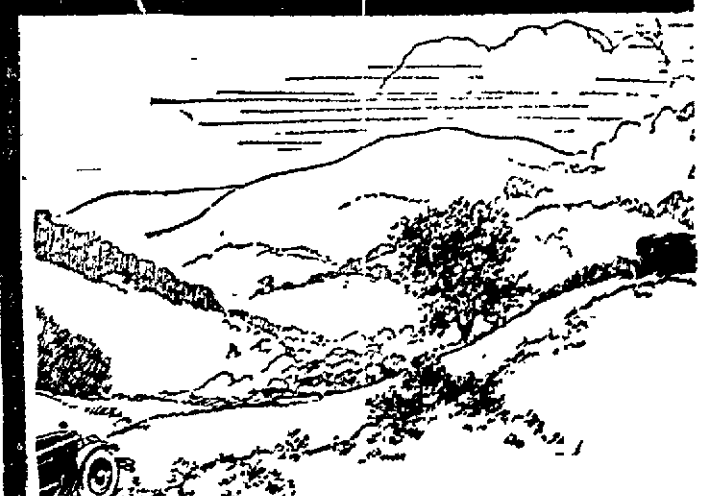

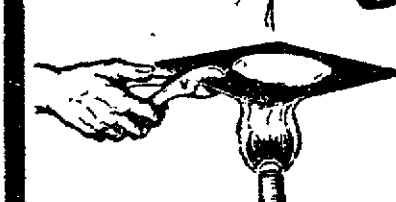

Why risk scored cylinders, burnt-out bearings, or power-destroying piston wear? Put your motor under the protection of high-heat-resisting Atlantic Motor Oil. It won't break down! It holds its "body." Extreme motor heat or heavy bearing pressure can't drive Atlantic from the friction surfaces.

High-heat-resisting Atlantic is a recent achievement of the Atlantic refineries.

ATLANTIC MOTOR OIL

Keeps Upkeep Down

Clearfielders Generous In Buying Tags to Help Destitute Children

Clearfield folk opened their hearts and purses on Saturday last to help care for the destitute women with children in care of the Volunteers of America by contributing the gener-

ous sum of \$273.64 to that worthy cause. Every one connected with the affair was well pleased and deeply grateful to all who in any way helped make the day successful. A statement issued by the organization's representative says: "To the city officials, the newspapers, the merchants who furnish the 'incentive' for the children's efforts as well as to Mrs. C. V. Steele's capable leader-

ship full credit should be given, neither must the public's generosity in patronizing the youthful workers be omitted.

From early in the morning until late in the afternoon the boys and girls worked faithfully and hard.

At the close of the contest it was found that Hazel Mitchell was entitled to first prize, having collected \$28.14. The second was won by Marion Mur-

phy who had \$27.51. Betty Glover had \$24.50 and received the third prize. The fourth and fifth were won by Isabel Reed and Emily Rowe. All the other children entitled to them were made happy with movie passes.

Clean House

This Fall With a

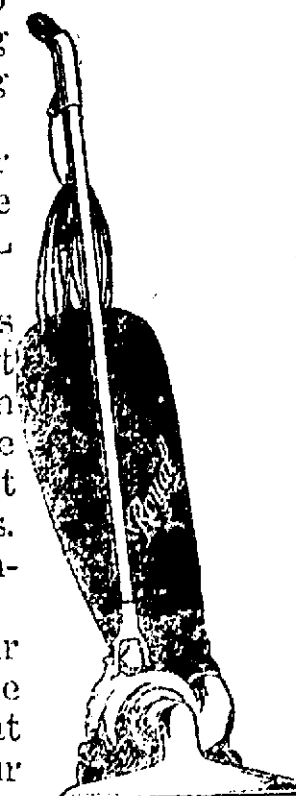

Now that the leaves are beginning to fall, your thoughts naturally turn to annual Fall housecleaning with its attendant cleaning of rugs and floors.

It will be much easier for you to do this part of the cleaning with a ROYAL Electric Suction Cleaner.

The ROYAL, with its strong suction, goes right after the dirt and the suction is strong enough to take every particle of dust right out of the thickest pile rugs. Yet it is not too strong to injure them.

We are so sure that your housecleaning will be done easier with a ROYAL that we will gladly come to your home and show you all the details of the working of this wonderful electric cleaner.

Electric Supply Co.

Hallowe'en Costumes

The costumes we have been looking for arrived on Saturday and they are clever as they can be. Made so they will stand the hilarity of your party, in colors that are particularly pertinent to the occasion, they are really good.

They are being sold so cheaply that you can't afford to take the time to make your own when you can get these. The quantity is more or less limited so we would suggest that you come in soon for yours.

All of the firms here represented have your interests at heart as well as their own and we sincerely hope these articles may be the means of a better understanding between the merchants and the public.

Why It Will Pay You To Trade In Clearfield

(Continued from Yesterday.)

banks, newspapers and all local businesses and each and every individual are all interdependent. The success of Clearfield rests on community of interests and the whole city's prosperity depends on the money made and spent right here.

Our commercial and civic organizations, our merchants and manufacturers and our religious organizations are trying to build conditions that will make patrons for our city, and one of the greatest problems arising is how to make conditions that will make permanent patrons for the things which our city has to offer. People are not drawn to cities by accident. Something must be there to attract them. So it is in the matter of buying in Clearfield. It must be made attractive.

Our people generally recognize that we have one of the best school systems in the state; that we have transportation facilities unsurpassed by few other towns in the state; that we have very favorable industrial conditions; that we have fine churches with wide awake church societies; that we have cheap fuel and desirable labor conditions; that we have a good home town and a real civic spirit behind it; but how many of our people realize that WE HAVE HOME

PRICELESS JEWELRY FOR PERSONAL ADORNMENT

For many years this store has been catering to your personal adornment and that we have succeeded is proved by the fact that many of our customers have been coming to us for years. And the things we have for your personal adornment are really priceless. There are gems from many lands. There is the handwork of many skilled craftsmen. There is the very latest in the jewelry designer's art for your selection.

J. CLARK SNYDER

Corner of Market and Second Streets.

Councilmen Vote To Discontinue Work

(Continued from Page One.)

The "Main street" of the town, is the only street in the town on which there is no drain, its absence working a real hardship on pedestrians on this street all fall and spring, to say nothing of the inconvenience to the people living in the Fourth street section.

Want Sidewalks Built

The Sidewalk Committee on complaint from people living in the neighborhood was directed to have a sidewalk built along the property of Albert Derrick on Elwood avenue. Notices to build walks were ordered served on the following property owners: West 3rd avenue, Mrs. Christina Herrington, Mrs. Dunlap and Paul Stauffer, Park avenue; John Noll and Verne Caldwell.

John M. Bain was present and asked for sidewalk line at his property on Witmer street. He asked that repairs be made to the walks in front of the Lannon property on Witmer street and the Powell and Cowdick properties on South Second street that water might not be allowed to main on the walk.

Chairman Beahan of Highway Department recommended that P. R. R. be asked to place a crossing over their tracks at the alley leading from South Second to South Fourth street between Spruce street and Park avenue for use of the Clearfield Machine Company. The Secretary was directed to request that the crossing be placed at once.

Adopt Boulevard Lighting
The plan for better lighting of the town, which plan calls for a rearrangement of all the present lights, the substitution of the present lights for a system of 100 to 400 candle power incandescents. The new system embraces the ornamental boulevard lighting system for the business district or center of town, which is contingent upon the starting property owners paying for the installation of the wires and poles for same. This installation will cost approximately \$1.90 per foot. If fifty-one per cent of the abutting property owners agree to the plan Council will then be asked to pass an Ordinance levying or assessing the cost of the installation of the lighting system against all the properties on the streets affected according to their frontage. The new plan will cost the taxpayers \$8126.50 per year or an increase over present lighting cost of \$2217.50 and will necessitate the addition of at least one mile to the light tax.

Garbage Dump Complaint
Secretary Gaudin of the Board of Health presented complaint of people residing in the neighborhood against the condition of the borough

garbage dump on Guinea Hill. They claim the incinerator is too small and advantage is taken of the place by people hauling garbage and rubbish. The matter was turned over to the Property Committee with directions to prepare a schedule of hours for burning, enlarge facilities for burning and otherwise clean the place up, band on next Tuesday evening.

Will Dance on New Street
The Ladies Auxiliary to the American Legion Band asked for and were given permission to block off the newly completed block on Locust street between Third and Fourth streets, for the purpose of holding a street dance for the benefit of the band.

Asked to Take Over Streets
Plan of the streets and alleys in the West Third avenue section recently laid out in lots and now being rapidly built up was presented to Council for adoption of said streets and alleys and same was referred to

the Highway Department for report at next meeting.
Dr. F. D. Leopold was present and asked council to extend stone wall across Walnut street adjoining his property as a measure designed to beautify the river front in that section. Dr. Leopold is completing a similar wall along his 400 foot frontage and this wall will give opportunity to fill in and terrace the river bank and will be a decided improvement. The borough's share of the wall would cost about \$50 and the matter of its construction was referred to the Highway Department.

Chairman Beahan reported the paving of the alleys between Pine and Reed streets in First Ward and river wall about completed and said when these two projects were finished during the present week the activities of the Highway Department on new construction would cease for the winter.

Yesterday's Series Game Ended In 6 to 4 Victory For McGraw's Giants

Polo Grounds, New York, Oct. 6.—In a veritable parade of pitchers the Giants contrived to edge under the wire with a 6 to 4 decision over the Senators in the third game of the world's series this afternoon, a belated Washington rally in the ninth inning being nipped by John Watson's worthy rescue pitching. Sparkling fielding by Frisch saved the Giants on several occasions, the Giant second Luseman thrice robbing Goslin of base hits.

It was New York's first presentation of the series of 1924 and a capacity crowd of nearly 50,000 viewed the proceedings with satisfaction. Strange to relate they cheered for both clubs with impartial fervor. The victory gave the Giants the

edge on the series by two games to one.

Frisch raced far into center field to snare Goslin's fly with Rice on first in the fourth then he repeated the performance at Goslin's expense in the fifth.

Two innings later Frisch went over behind first base for Goslin's smash with two men on.

In all the Giants used four pitchers and the Senators the same. Ryan did

well for a while after relieving McQuillan in the fourth but blew wide open in the ninth. Harris got a single to open the ninth on a fly ball that fell safe at their feet. Goslin and Judge followed with hits, filling the bases. Whereupon McGraw waved Ryan out of the picture in favor of Johnson. The latter walked Blauvelt in a run and then walked to

the cros house at McGraw's suggestion.

Watson then came on and Miller on a foul to Lindstrom caused Ruel to force Goslin at third in the farewell out.

Misses Ella and Gertrude Ardary of Clearfield, and Mr. and Mrs. Reuben Bonsall of Curwensville, spent Sunday at the home of Emory Hummel.

Curwensville's Own Column

Harry Ammerman, of Philipsburg, came over to Curwensville last Saturday to encourage and cheer his football team on to victory, and to call on his mother and other relatives. Mrs. Cecelia Ballute accompanied him and spent the Sabbath day with her sister, Mrs. Ammerman.

The Yellow Dogs had intended to go over to DuBois last evening and run up another herd of mongrels for their K-9 Kennel. But the dog was under which the dogs go a-mooning was not just right, so the trip over the mountain was postponed for a few nights longer.

Street Commissioner Dale with his crew of men have been going over Walnut and Filbert streets and filling the cracks and crevices with a tar mixture.

Mrs. Edith Weigle of Harrisburg, Pa. Mrs. Lola Lafferty, of Philadelphia, Pa., are visiting friends in town. Mrs. Weigle is a daughter of the late Hudson Lytle, formerly of this place, and for some years has been a teacher in the Curwensville public schools.

E. T. Dehnen, junior partner in the Dehnen Brothers store, returned to Curwensville after a five-day business trip to the Eastern cities on a full buying expedition.

Levi Weber, of Bloom township, a former farmer of that section, was taken to the Rowles hospital at Clearfield the other day for medical treatment.

Last Saturday was "tag day" in Curwensville and about half of our population was out and as full of tag as a dog with a hide full of tag. Judging from the report, yesterday did some business, until the football game, when it was all over with the kiddies.

Robert and wife, of Meriden, Conn., are in Curwensville visiting. He is a son of Mr. T. J. Robinson, of Clearfield street, and a former resident of Curwensville. Robert was the acting superintendent of the old Bailey along with his father, who operated in all glory and honor. Mrs. Robinson is a daughter of Mr. Robinson.

The new concrete Anderson creek bridge has been wide open so far as traffic is concerned, ever since the yellow took down the barriers a week ago. The bridge was not to have been formally opened until about the 8th of the present month, but that does not seem to make any difference with the fellows who don't want to ford the creek any longer. It is not possible that the work on the structure has been interrupted to any extent by using it a little ahead of time.

The Clearfield League of the M. E. Church will hold an entertainment in the Adel Sunday School room on Tuesday evening, October 8th, at 8 o'clock.

o'clock. The program will consist of a short play entitled "Who's the Boss?", recitations and musical numbers. Adults 15c admission, children 10c.

"Heart Tag" day receipts when checked up by Miss Carrie B. Dyer, who took charge of the Volunteers of America Tag Day held here on Saturday last, totaled the sum of \$71.90. The children worked faithfully from early in the morning until the close and those interested in the affair were deeply grateful to all who helped in any way to make the enterprise successful.

At the close of the "contest" it was found that Margaret Ardary was entitled to the first prize, having secured for her tags \$7.44. The second was won by Dick Daugherty, who had \$5.76. The third winner was Sarah King, with \$5.01. The fourth prize was won by Marie Weber who had \$1.38. All the other children entitled to receive them were made happy with movie passes.

SPORTS

McTIGUE MAY BE MATCHED WITH TUNNEY

New York, Oct. 7. (INS.)—Mike McTigue, world's light heavyweight champion, will apply today for a license to box in New York, according to reports in circulation. If application is made, McTigue will be ordered to accept the challenge of Gene Tunney, American champion of the division.

ZACHARY GIVEN THE WIN

New York, Oct. 7. (INS.)—Because of a reversed decision by the official scorers, Zachary and not Marberry gets credit for winning the second game of the world's series for Washington on Sunday.

Marberry relieved Zachary with the score tied in the ninth inning and fanned Jackson. The Senators won out in their half. After a conference the scorers decided that Zachary should get credit for the victory because he pitched eight and two-thirds innings.

WHITE SOX WIN FOR 10TH TIME

Chicago, Oct. 7. (INS.)—For the tenth time in 13 years the White Sox have demonstrated their superiority over their National League confederates by emerging victorious in the annual city series between the two teams. This year, they brought home the fourth game of the series by defeating the Cubs 5 to 3 at their home park yesterday. The Cubs had but two games to their credit.

NO CLUE TO SAFE BLOWERS

Despite the fact that Sheriff Lowdell, Detective Eppers and State Police have been carefully investigating the robbery of the Boardman postoffice ever since its happening became known, positively no clue to the perpetrators of the robbery have been secured.

It is the belief of the authorities that the work was done by the same gang of crooks that robbed a drug store and pool room at Oscola on the Friday evening previous.

We have since learned that the automobile party which accosted Rev. Leith at Boardman Sunday evening were four young people who were enroute to their home at Madera where they were endeavoring to find the road from Boardman to their home, having missed the road in the night.

STATE CONVENTION OF W. C. T. U. WILL BE HELD OCT. 14-17 AT PITTSBURG, PA.

Allegheny county will be hostess to the Fifth Annual Convention of the Woman's Christian Temperance Union of Pennsylvania. This Convention which is the Jubilee meeting of the organization, will be held in the Bellefield Presbyterian Church, corner of Fifth and Bellefield Avenues, October 14-17. This is the fifth time in the history of the organization that the Convention has been held in Allegheny county.

For eighteen years Mrs. Ella M. George has led the White Ribbon Hosts and presided at the Annual Gatherings. Many are looking forward to this Jubilee Celebration with much pleasure. The program will be of unusual interest this year and some who joined the hosts many years ago and helped in the Crusade, will be present.

On Monday the 13th, the State Officers, Superintendents and County Presidents will arrive in the City and Monday evening and Tuesday will be given over to Central and Executive Committee meetings, and Official Board meetings. On Monday evening there will also be a Superintendents Luncheon or Get-Together meeting at which time they will discuss in what way they can better their work. On Tuesday evening there will be the Convention Banquet at which Hon. Clyde Kelly will be one of the speakers. A Diamond Medal Contest will be held on Wednesday evening in which contestants from a number of counties will take part.

Hon. John G. Cooper, member of Congress from Ohio, will address the Convention on Thursday evening. Delegates from every part of the State will attend this Convention for every county in the State is organized. Delegates from Clearfield county Miss LeRue Chorpemning, Clearfield; Mrs.

Lillian N. Trezise and Mrs. G. C. Sink, DuBois; Mrs. Elizabeth Gates and Mrs. Nora Caldwell, Curwensville.

MRS. AGNES FIGGINS DIES

Mrs. Agnes Figgins, of State Center, Iowa, sister of Mrs. J. B. Hummel, East End, passed away at the Hummel home on Sunday morning at 7:40 o'clock after a short illness.

Mrs. Figgins had come east to visit her sister and with Mrs. Hummel had gone to Hummelstown, Lebanon county, to visit their younger brother. While there Mrs. Figgins was taken very sick and they were forced to return home on Tuesday last. Her illness was due to serious liver affection, which failed to respond to medical treatment.

The deceased, who was a member of the Methodist Episcopal church, was the widow of J. F. Figgins, who passed to that better world twenty-two years ago. She leaves to mourn the loss of a loving and devoted mother two sons and one daughter: James and Daniel W. Figgins, of State Center, Iowa and Mrs. (Dr.) F. Smith, of Lacey, Iowa. Two sisters and three brothers also survive as follows: Mrs. B. J. Hummel of Clearfield; Mrs. J. F. Enders of Portland, Tenn.; J. F. Yingat, of Seattle, Wash.; James Yingat, of Hummelstown, Pa.; and George Yingat, of State Center, Iowa. She is also survived by two step brothers, Harvey and Grant of Harrisburg, Pa.

Brief funeral services were held at the Hummel home today by Rev. Alban, of the U. B. church, after which the remains were placed on the p. m. Pennsylvania train for her home in Iowa. Funeral service and burial will take place at State Center on Wednesday afternoon.

Consolation. Many a fellow who is always willing because all his friends have forsaken him should be wisely glad his friends were wise enough to forsake him in time to avoid being here with him.—Sung Sing Star-Philipp.

Constipation is the arch-enemy of Health

BEECHAM'S PILLS

Conquer the enemy of constipation and you rout a whole army of physical foes, including indigestion, biliousness, sick headache, sleeplessness and nervous dyspepsia. Beecham's Pills have been a worldwide favorite laxative for over 80 years. They go straight to the cause of many ills and remove it. They act promptly, pleasantly and surely. Purely vegetable, harmless, non-habit-forming. These time-tested pills strengthen the stomach, stimulate the liver and

ANATOLE FRANCE IN VERY POOR HEALTH

Tours, France, Oct. 17 (INS.)—Anatole France, famous essayist, who is critically ill, declined still further today.

Dr. Gaudeau, the attending physician, said the patient was growing steadily weaker and that he could hold out only slight hope. The writer is 81 years of age.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-go feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. "Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

VOLUME XVIII

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, OCTOBER 7, 1924.

"Shenandoah" Casts Off On 7000 Mile Journey

**AMERICA'S HUGE AIRSHIP LEAVES
LAKEHURST, N. J. AT TEN O'CLOCK ON
TRIP ACROSS THE UNITED STATES**

Y. Lakehurst, N. J., Oct. 7. (INS).—The big air cruiser "Shenandoah" cast off from her mooring mast at the navy station here and nosed south west on the start of the longest voyage she has ever attempted at 10 o'clock today.

The "Shenandoah" is scheduled to arrive at Fort Worth some time between midnight Wednesday and dawn Thursday morning, the exact time depending on the winds encountered en route. Weather reports from Washington indicated fair sailing weather en route.

Commander Zachary Lansdowne took the huge dirigible more than 100 miles in a two weeks' trip via the usual route to the Pacific where visits will be made to Reno, Los Angeles, San Francisco, Seattle, Lakehurst to Fort Worth, was the first leg of the trip.

Admiral W. A. Moffett, commander of the third naval district, left at 10 o'clock for the dirigible, which has a crew of 40 men.

At 10 o'clock, N. J., Oct. 7. (INS).—The "Shenandoah" seemed to breathe a breath of breeze—the "Shenandoah" formerly known as the "Zephyr" was off.

The dirigible was ideal for the start of the 17-day trip over 7,000 miles to the west and southwest, the longest the giant cruiser has ever made.

Earlier Zachary Lansdowne had taken the dirigible westward to the Pacific and the bright sun had been with her as she sailed.

But one crew member arrived from Texas to the dirigible was wanted.

Admiral Moffett, commander of the third naval district, arrived at Philadelphia to make the westward journey with Commander Lansdowne and his crew of 40.

The "Shenandoah" will land at Seattle according to present plans. Other landings, if any will be made, will be announced later. Food and fuel for five days were placed aboard yesterday.

Shortly after daylight, the big ship was brought from her hangar and placed at her mooring mast, in readiness for the start.

DELPHIANS TO MEET

The Central Pennsylvania District of the National Delphian Society will hold its first fall luncheon and rally at the Hotel Phillips, Philadelphia on Wednesday, Oct. 8th at 12:30 p. m. This includes the Tyronese, Philadelphia, Osceola Mills, and Clearfield chapters.

Mrs. Chas. Geoff of New York will speak on Delphian Work and Ideals. Dr. William Dye of State College, Pa. will talk on "The Irish Renaissance." All Delphian members are cordially invited.

BRIGHAM—MARTELL

Leland Brigham and Louise Martell were quietly married Tuesday evening, September 30, by Rev. Boon at the Clearfield Baptist Church.

Adrian Woman Dies In Attempt To Start Fire By Use Of Kerosene

Punxsutawney, Oct. 6.—When she attempted to light a fire at her home in Adrian at 5 o'clock Sunday morning, Mrs. Michael Kuzelak, aged 22, was so badly burned that she died at 9 o'clock Sunday night in the Adrian hospital, Punxsutawney.

Mrs. Kuzelak was pouring gasoline onto wood on the stove to make it burn more brightly, when the fluid exploded. She raised the can over her head to throw it away, the stuff running over her clothing, enveloping her in flames. Her screams brought neighbors to the scene who beat out the flames and saved the home from destruction. She was hurried to the Adrian hospital, but her condition was hopeless. The deceased was about to become a mother.

She is survived by her husband, her parents, Mr. and Mrs. John Sheema and the following brothers and sisters, Helen, Anna, Susan, Michael, John and Nicklas, all at home in Adrian.

SPOUTING GAS WELL DELAYS TRAIN NEAR ROANOKE, WEST VA.

Roanoke W. Va., Oct. 7. (INS).—A newly drilled gas well held up a Baltimore and Ohio passenger train near here today, for more than an hour. The well, which was drilled on the Snyder farm by the Hope Gas Company was so strong that gas spread over the tracks and the engineer thought it dangerous to run his engine past. Drillers finally stopped the flow. The gasser is reported to have a 10,000,000 cubic foot flow.

Split Rail Ditches Nine Cars Of Mail Train Near Harrisburg Today

Harrisburg, Pa., Oct. 7. (INS).—Nine cars were overturned in a ditch one mile east of here this morning when a southwestern mail train on the Pennsylvania railroad, hit a split rail. Passengers in one of the coaches were shaken up but escaped uninjured.

According to railroad officials, the engine and one mail car passed safely over the split rail, but the first passenger coach left the track, dragging eight others with it. The cars plunged down a little embankment and overturned in the ditch.

14TH AND 20TH CENTURY MEET

Blinded by the fog or dreaming of Elysian, the faithful old nag which hauls the milk wagon of the Clearfield Dairy Company up in the Second Ward, meandered too far out into the beaten path early this morning on South Second street in front of the residence of B. J. Sheehy and the Curvenses jinxed horned right into the rear end of the milk wagon.

There was a resounding crash as the wagon and its load of bottles hit the brick street while the healthiest pasteurized milk out of doors painted the scenery and landscape thereabouts a lily white. No casualties except to the wagon, the bottles and the milk, the latter two being total losses.

Mr. and Mrs. Lou Harris and daughter Louise and Mr. and Mrs. J. E. Black of Altoona motored here Sunday and spent the day at the home of W. E. Phillips.

HAMILTON-JEFFERSON ASSOCIATION, DEVOTED TO CONSTITUTIONAL IDEALS OF RELIGIOUS FREEDOM, MAKES BOW

UTICA, N. Y., October 7. (INS).—Laymen of Roman Catholic and Protestant faiths, ninety-five per cent of them Knights of Columbus and Masons, last night launched the Utica Chapter of the Hamilton-Jefferson Association, Inc.

The purpose of the organization is "to promote devotion to and understanding of the purpose of the founders of our republic as expressed in the Constitution of the United States of America and to foster a spirit of tolerance in economics, politics and religion."

The organization was announced as non-secret, non-sectarian, non-partisan.

The idea was given birth in this city and is sponsored by leading citizens. Chapters will be formed in every important city in the country as the movement spreads, it was announced today.

GOSLIN'S HOMER PUTS SENATORS AHEAD IN THIRD

THE LINE-UP

Polo Grounds, New York, Oct. 7. (INS).—The Giants and Senators lined up as follows this afternoon:

Giants	Senators
Lindstrom .. 3b	McNeely cf
Frishch .. 2b	Harris .. 2b
Young .. 1b	Rice .. rf
Kelly .. lf	Goslin .. lf
Meusel .. lf	Judge .. lf
Wilson .. ss	Bluege .. ss
Jackson .. ss	Ruel .. c
Gowdy .. c	Miller .. 3b
Barnes .. p	Mogridge .. p

Umpires: Quigley, National, plate; Connelly, American, at first base; Klein, National, at second; Dincen, American, third base.

Polo Grounds, New York, Oct. 7.—Behind the inspired pitching of George Mogridge, the Washington Senators arose upon their rear legs this afternoon and everlastingly beat the New York Giants 7 to 4. In consequence the Senators carried the series to a tie at two all, putting it squarely up to Johnson and Nehf to pitch their clubs into lead tomorrow.

Washington had heroes in plenty today. Mogridge was thought to be badly spavined in the pre-game calculations, yet he held the Giants to three hits in the seven and a third innings he pitched.

George waxed wild in the eighth and was removed in favor of Marberry, but he wore the laurel just the same.

So did "Goose" Goslin, who added to the gaiety of the occasion by socking four hits for a perfect average. One of them was his second homer of the series. It came at the expense of Barnes with McNeely and Harris lunging on the paths in the third inning, the ball falling in the lower tier of the right field stand.

In all Goslin drove in four Senators and scored two more by individual gesture. Stanley Harris, the boy wonder manager, also lined up with the heroes. He made remarkable stops in retiring Frishch and Gowdy when the Giants threatened in the seventh. His relay of Rice's throw, cutting down Meusel at the plate in the eighth also was a breadwinner.

So much for heroes. The "goats" were Barnes and Dean, who were socked indiscriminately by the Senators.

Another capacity crowd of 48,000 cheered the Senators to a hoarse echo. In fact a casual loiterer outside the park might have been pardoned if he had imagined that the Giants had won.

PUNXY ATTORNEY KILLED WHEN TEAM RUNS INTO AUTO

Alex J. Truitt Struck By the Wagon Tongue and Suffers Horrible Hurts Which Bring Death.

WAS SEATED IN CAR

Punxsutawney, Oct. 6.—In the most horrible accident occurring here in years, Alex J. Truitt, one of the leading attorneys of Jefferson county, was killed, W. B. Adams, another prominent attorney, had his shoulder wrenched, and William Gillespie, of the Margotti law firm, escaped injury this morning, when a team of horses crashed into a car in which they were riding near the Trehearne store on Front street. The injured men were taken to the Adrian hospital, where after examination Mr. Adams and Mr. Gillespie left for their homes. Mr. Truitt lingered about two hours, dying at 11 o'clock of internal injuries.

Mr. Truitt, Mr. Adams and Mr. Gillespie were enroute to Brookville to attend Argument Court in the C. J. Margotti sedan with Peter Spinelli driving. As they approached the Trehearne store the driver saw a team of runaway horses approaching and pulled close over the curb onto the sidewalk to escape the frightened animals. The horses, however, veered into the machine, one of them and the tongue of the wagon hitting the rear door on the left side. The tongue even struck Mr. Truitt, who was nearest the door, inflicting terrible injuries. Mr. Adams sustained a wrenched shoulder from the impact, but Mr. Gillespie, who is blind, escaped injury entirely.

The team of horses belonged to Jack Brown, of Horatio street, and was being driven by his son, who was hauling two dump wagons for the Cleaver Construction Company, engaged in paving Park avenue. At the top of the Jenks avenue hill, the young man stopped the team and left the wagon and horses standing while he went on a short errand. The horses became frightened and tore down the hill at furious speed. The street is narrow where the accident occurred and the animals plunged into the car. One of them, a huge black, sustained a broken leg and other injuries and was shot by Dr. M. D. Rentschler. The car was badly damaged.

The deceased was in his 68th year and survived by his widow, one son and a daughter. The son, A. J. Truitt, Jr., lives in Cleveland, Ohio, and the daughter, Jean, is with her mother in Florida where Mr. Truitt had large holdings.

WILL OPEN ACCESSORY STORE

J. S. Gilliland and B. T. Owens, local business men, expect to open an automobile accessory and parts store in the room owned by the County National Bank and at present occupied by the Ell-Jay Stores, just as soon as possession of the room can be secured.

E. CLAIR DAVIS IS GIVEN DESERVED BANK PROMOTION

The Board of Directors of the County National Bank at its meeting this morning elected E. Clair Davis to the responsible position of assistant cashier. Mr. Davis has been a valued employee of the County National Bank for a number of years and his promotion to the place accorded him by the action of the board of directors this morning is but deserved recognition of faithfulness, attention to duty and ability as a banker.

Mr. Davis' host of personal and business friends will rejoice with him over this recognition of his ability.

ADVERTISING BY RADIO GETS KNOCK AT RADIO MEETING

By ROBERT S. THORNBURGH, I. N. S. Staff Correspondent

Washington, Oct. 7.—The cry against monopoly—a plea that the air above be kept free for the use of millions of Americans who, nightly derive the principal entertainment of their lives from the invisible waves that dart through the ether—was raised here today at the opening session of the third radio conference of the United States.

Led by Secretary of Commerce Hoover, who is to radio what Keweenaw Mountain Landis is to baseball, nearly 1,000 radio leaders of the country protested against control of aerial communication by any central group.

Addressing the conference Hoover said: "It would be unfortunate indeed, if such an important function as the distribution of information by radio should ever fall into the hands of the government."

"It would be still more unfortunate if its control should come under the arbitrary power of any person or group of persons."

The United States government has already launched into investigation of alleged monopolies in the manufacture of radio equipment the Federal Trade Commission having submitted a report on the subject to Attorney Stone. The Department of Justice, it was learned, is making a probe of the situation. No immediate action is anticipated.

Representing radio devotees of America, Secretary Hoover has already made a plea to Congress for adequate legislation to protect the development of what he termed an institution that has "passed from the field of adventure to that of public utility."

Hundreds of letters have poured into the Department of Commerce from users of everything from the little crystal sets to high priced 12 tube outfits demanding that the government exercise its power against illegal use of the air.

Delegates declared that a monopoly in radio communication might cause the use of this utility for distribution of advertising.

Nothing would kill radio quicker than its employment for such purposes, according to Hoover.

For two years radio has been regulated by a voluntarily established "self government" and the experiment, unique in the industrial history of the country has been successful delegates and government officials declared today. The conference will recommend another year of self government or voluntary rule until Congress recognizes radio as it has recognized other communication and transportation means.

From a technical standpoint the conference will suggest an allocation of wave lengths to the various broadcasting stations and services, limitation of power of stations to reduce interference, higher standards of requirements for license to broadcast, that programs of the highest class will be offered the public, and

COUNCILMEN VOTE TO DISCONTINUE WORK ON MARKET STREET SEWER

Lateness of Season and High Cost Is Reason; Dads Transact a Lot of Interesting Business.

BOULEVARD LIGHTS GO STEP FORWARD

The regular meeting of Town Council held at the Borough Building last evening was presided over by President George M. Rosser and attended by ten of the twelve members of council and much business of importance to the taxpayers was transacted.

It was decided at this meeting to stop construction on the Market street sewer until next spring on account of the lateness of the season and the fact that the cost of same was bound to exceed the estimate of the cost of the improvement.

Treasury Holds \$28,310.70

The Clearfield National Bank Treasurer of the Borough, reported a balance of \$28,310.70 in the treasury. This sum is divided among the different funds as follows:—General Borough fund \$9,550.25. Bond fund, \$15,175.44. Light and Water fund, \$5,662.10. Shade Tree fund, \$57.73; Fireman's Relief fund, \$284.12.

Burgess Collects \$462

Burgess Kittelberger reported 52 arrests and the collection of \$462 in fines and licenses since his previous report several months ago.

New Work Nearing Completion

Borough Engineer Hess reported at length on Locust street paving, West Third avenue, West Cherry and Gulch avenue drain, alley paving between Pine and Reed streets, Linden street sewer, river wall above Walnut street, postoffice alley paving and Market street drain. He announced the closing up of nearly all of these projects in readiness for winter.

Leavy Avenue Crossing

Borough Solicitor Urey reported that the Pennsylvania Railroad company had been notified to build concrete sidewalks along their property at the foot of Bigler avenue hill and across their right of way and tracks at the corner of Leavy avenue and South Third street. He said the street crossing there was out of line and the Highway Department was directed to change same to conform with the new sidewalk line.

Market Street Drain

The Market street drain came in for a great deal of discussion. When this project was advanced it was thought the drain could be laid for approximately \$10,000. Owing to the depth of the drain and the character of the earth through which it is being built it is found to be quite an expensive undertaking. The first section completed extended the drain under Market street thru to the river, making necessary a tunnel under the street for a distance of more than 150 feet. The council was somewhat divided on the question of continuing the work at this time. Chairman Adams, of the Sewer Committee, who has given a great deal of his time the past summer to sewer work and Councilman Poorman favoring keeping on with the work until the amount of the original estimate was expended, but the other eight members present voted to suspend operations till next spring after the sewer is completed to the last opening made in front of the property of Miss Ella Shaw. The total length of the drain is 1900 feet and a little more than one-fourth of it will have been completed when the point named as a stopping place is reached. It will be regretted that this drain cannot be completed this year as it is one of the most needed improvements in Clearfield, as Market street

(Continued on Page Eight)

PENNSY-GRAMS

Philadelphia.—Joseph Colombo, 11, used an axe to break open a three-inch shell he found in a dump near his home. The shell exploded and burned him severely about the body. He is in a critical condition at Flower hospital.

Doylestown.—A snowplow was a part of the bootleggers outfit found near Jamison, in Bucks county, when police raided and found a large still. The snow plow, according to police, was used to prevent the roads from blocking up in winter and forcing the plant to suspend operations.

Harrisburg.—Fire completely destroyed the Kuehl Supply company last night causing a loss of more than \$25,000. Defective wiring is believed to have been the cause. A row of frame dwellings next to the burning building was threatened for a time.

Harrisburg.—That deer are so numerous they form a menace to the Agricultural department of South mountain, is the complaint of scores of farmers to the State Game Commission. Grain fields and orchards have been ruined by the animals, residents declared. A personal inspection of the damage done will be made by the Commission Thursday.

Harrisburg.—Twelve men were added to the State police today. Having successfully passed mental and physical examination. All but three are former army men. Three men each have been assigned to the Greensburg and Wyoming troops and two each to the Pottsville, Butler and Lancaster troops.

Harrisburg.—Gov. Pinchot has designated the week of Oct. 5 to 11 as fire prevention week. The proclamation cites the fact that \$500,000,000 damage was done by fire in 1923 and in addition there was serious loss of life.

Rochester.—Chief of Police John Luttenuer of Neville Island, was searching today for the body of a boy, believed to be Lewis Armstrong, 14, the missing, Coraopolis high school boy. Four men in a house boat reported to the Rochester police that they saw a boy's body on the sand bar of the river near Lawndale dam last night, but were handicapped by darkness in trying to rescue the boy.

Coraopolis.—This town is without a police chief today. The borough council dismissed Chief of Police John J. Mincher last night and also accepted Patrolman James McClure's resignation. Mincher declared he was giving no reason for his dismissal. President W. G. Weimer of the council said Mincher was ousted "for the health of the service."

Pittsburgh.—Among the eight prisoners taken to Atlanta, Ga., today by U. S. Marshall James C. McGreger to serve various sentences at the federal prison there, were James P. Kirk and E. J. Rappold, Erie physicians, four guilty of violating the Harrison narcotics law. They were sentenced to one year and two years respectively.

Dr. Fosdick Resigns As Assistant Pastor; Refuses To Become Presbyterian

New York, Oct. 6.—The Presbytery of New York received today, but delayed action upon, the resignation of the Rev. Dr. Harry Emerson Fosdick, the Baptist preacher of modernist ideas, who for five years, has held an assistant ministership in the First Presbyterian church of this city.

The resignation was Doctor Fosdick's answer to the request of the Presbytery that in accordance with a ruling of the General Assembly five months ago, he should renounce his Baptist membership and become a Presbyterian or relinquish his associate pastorate.

A special committee of the Presbytery, headed by Dr. Edwin Whittaker Work, communicated the decree of the General Assembly to the Rev. Dr. Fosdick and today read before the Presbytery the minister's answer ending in resignation.

At the committee's recommendation the case was placed in the hands of the First church for further investigation and deliberations, with instructions to report to the Presbytery by November 10. It is expected that on that date the First Church which has stood by the Rev. Dr. Fosdick for two years, while their battle between fundamentalists and modernists raged around him, will make known whether it purposes to accept or reject the resignation.

LESSON NO. 1 THE PROPER USE OF LIGHT

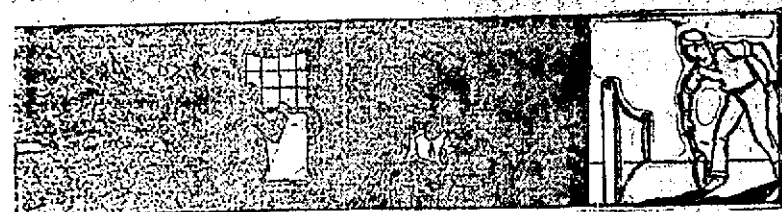

Have you ever gone into a room at night, and felt that there was too much light in the room? Perhaps it was because you came in at the dark, and your eyes were dazzled by the light. If this feeling of dazzle persisted, there was surely something wrong with the lights.

It was not too much light, however. For in that room there was certainly not more than one hundredth part of the light that we find during a clear day on the shady side of a tree or building. Nor one-fifth hundredth part of what we are accustomed to find in the bright sunlight. Surely, then, the trouble in that room was not too much light!

be quite disagreeable and might not be very good for our eyes.

In order to protect our eyes, all lamp bulbs should be shaded in such a way that we cannot see the lighted filament or wire inside the bulb and so that we do not even see a very bright spot in the shade directly in front of this lighted filament. When lights are shaded in this way, it is hardly possible to get too much light for comfortable vision. Sometimes the use of frosted bulbs will help to remove annoying glare.

Whenever you hear someone say that there is too much light in a room, it is safe to say the real trouble is not too much light, but rather that there is too much dazzle.

GLARE

The trouble in the room was too much glare—too much dazzle. Any very bright light which shines directly into the eyes produces glare and eyestrain. This becomes more and more unpleasant as the light stands out with greater contrast to the darkness of the background.

Lights for use in the home have improved quite rapidly during the last two or three generations and as soon as a better light was invented, we just put the new one in place of the old one. First the candle was replaced by the oil lamp, and this in turn by the gas light. When the modern electric light bulbs or incandescent lamps were invented and used in homes instead of gas, they gave more light and were much brighter than anything we had before.

A bright light burning out of doors in the day might not even be noticed, and it would not cause glare because there would not be enough difference between the brightness of the light and the brightness of the daylight. However, at night this same light would

and glare and that the lights are not properly shaded.

ANOTHER KIND OF GLARE

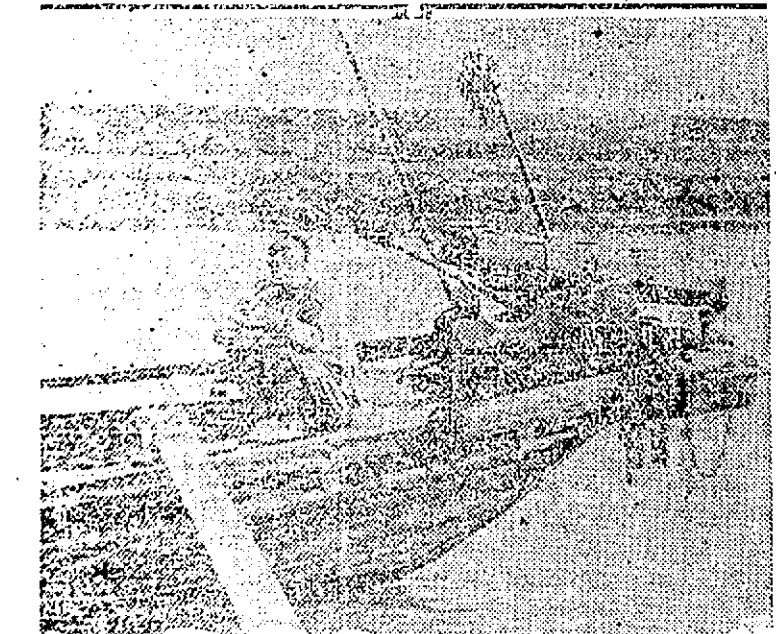

How tired our eyes become after a day on the water, or when the sun shines brightly on the snow covered ground. Do you remember the mischievous boy in the classroom who caught a beam of sunlight in a mirror and reflected it into your eyes? It made you start. These things are particularly annoying because our eyeballs give us no protection from this indirect or reflected light which comes in from below the level of the eyes.

This kind of glare must also be guarded against if we are reading or writing on glossy paper. The light should come over the shoulder, or be directed to the page at such an angle that a beam of light from the lighted filament of a lamp bulb cannot be reflected up into our eyes. Lamps placed in front of a mirror and shaded by shields should not be placed in such a position that the mirror will reflect the image of the lighted filament of the lamp bulb back into our eyes and cause this kind of glare.

The two lower pictures show how to improve bad lighting. The man at the left shaded the light and changed his position. The man at the right changed the shade on the table lamp. The picture in the center shows a good arrangement for reading.

A Chinese Man o' War

China's inland navy is playing an important part in the present fighting. Little canal gunboats, like this one, are plying up and down the rivers. They are not very imposing but they often come in handy.

GOSLIN'S HOMER

(Continued from Page One)

Wilson doubled to right, scoring Young, but Meusel was out down at the plate. Harris to Ruel, averting impending disaster.

Gowdy singled down the right field line to open the ninth and sped to third on Rice's carefree return. He scored on Lindstrom's hit after Bentley had fanned.

Frisch then walked but was forced at second on Young's tap to Judge and brother Kelly then obliged by striking out.

FIRST INNING: Senators. McNeely out, Jackson to Kelly. Harris fanned. Rice out, Frisch to Kelly. No runs, no hits, no errors.

Giants. Lindstrom walked. Frisch got a great ovation on his work yesterday. But he went out, Harris to Judge, and Lindstrom took second. Young up. Lindstrom scored and Young reached 1st safely on Bluege's wild throw to first base. Kelly flied to McNeely, Young taking second after the catch. Meusel walked. Wilson out, Harris to Judge. One run, no hits, one error.

SECOND INNING: Senators. Goslin singled over second. Judge flied to Kelly. Bluege beat out an infield hit down third base line, Goslin going to second. Ruel out, Lindstrom to Kelly. Goslin going to third and Bluege to second. Miller out, Lindstrom to Kelly. No runs, two hits, no errors.

Giants. Jackson flied to McNeely. Gowdy out, Harris to Judge. Barnes walked. Lindstrom singled to right. Barnes stopping at second. Frisch popped to Harris. No runs, one hit, no errors.

THIRD INNING: Senators. Mogridge fanned. McNeely singled to left. Harris singled to right, McNeely going to second. Rice out, Frisch to Kelly. McNeely going to third and Harris to second. Goslin hit a homer

into lower right field stand, scoring McNeely and Harris ahead of him. The crowd here showed that it was with the Senators. Judge out, Kelly to Barnes. Three runs, three hits, no errors.

Giants. Young fanned. Kelly fanned. Meusel flied to Goslin in deep left field. No runs, no hits, no errors.

FOURTH INNING: Senators. Bluege singled to left. Ruel sacrificed. Barnes to Kelly. Bluege going to second. Miller flied to Meusel. Mogridge fanned. No runs, one hit, no errors.

Giants. Wilson flied to Goslin. Jackson out, Miller to Judge. Gowdy flied to Goslin. No runs, no hits, no errors.

FIFTH INNING: Senators. McNeely singled to left. Harris singled to left, McNeely going to third. McNeely scored and Harris went to second on a wild pitch by Barnes. Rice popped to Lindstrom. Goslin cheered as he comes to bat. He swung at the first, then singled to left, scoring Harris. It was Goslin's third hit. Judge tried to Wilson. Bluege up. Goslin out trying to steal, Gowdy to Frisch. Two runs, three hits, no errors.

Giants. Terry batting for Barnes. Cut, Harris to Judge. Lindstrom beat out an infield hit to third. Frisch flied to Rice. Young forced Lindstrom at second; Harris to Bluege. No runs, one hit, no errors.

SIXTH INNING: Senators. Baldwin pitching for the Giants. Bluege flied to Frisch. Ruel out, Jackson to Kelly. Miller flied to Wilson. No runs, no hits, no errors.

Giants. Kelly hit a double to deep right field. Meusel out, Bluege to Judge. Kelly going to third. Wilson up. Kelly scored on Wilson's out. Bluege to Judge. Jackson out, Bluege to Judge. One run, one hit, no errors.

SEVENTH INNING: Senators. Mogridge fanned. McNeely doubled to left. Harris flied to Wilson. McNeely going to third after the catch. Rice flied to Meusel. No runs, one hit, no errors.

Giants. Gowdy out, Harris to Judge. Harris making a brilliant stop. South-

worth batted for Baldwin. Southworth reached first safely when Miller fumbled a grounder. Lindstrom forced Southworth at second. Miller to Harris. Frisch out, Harris to Judge. Harris making another sensational stop back in right field. No runs, no hits, one error.

EIGHTH INNING: Senators. Goslin up. Deane pitching for Giants. Goslin singled to center. His fourth hit of the game. Judge singled to left. Goslin going to third and Judge to second when Meusel fumbled the ball in left field. Bluege singled to left scoring Goslin and Judge. Bluege went to second on the throw to the plate. Ruel flied to Kelly. Miller flied to Frisch. Mogridge fanned. Two runs, three hits, one error.

Giants. Young walked. Kelly flied to McNeely. Meusel walked. Wilson up. After pitching two balls to Wilson, Mogridge was taken out by Harris who called Marberry to stop the Giants' onslaught. Wilson doubled against left field wall, scoring Young, but Meusel was thrown out at the plate, Rice to Harris to Ruel. Jackson out to Judge, unassisted. One run, one hit, no errors.

NINTH INNING: Senators. McNeely fanned. Harris out, Jackson to Kelly. Rice out, Frisch to Kelly. No runs, no hits, no errors.

Giants. Gowdy singled to right and went to third when Rice made a wild throw to the infield. Bentley up, batting for Deane. He fanned. Lindstrom up. Gowdy scored on Lindstrom's single over second base. Frisch walked. Young forced Frisch at second. Judge to Harris. Lindstrom taking third. Kelly fanned.

SENATORS WIN, 7 TO 4.

Caterpillars Travel in Companies. The caterpillar, according to naturalists, knows that there is safety in numbers, and whole companies may be found feeding side by side while keeping a sharp lookout for their bird enemies; but when a caterpillar is by himself he scarcely dares move for fear of attracting attention. Even when he is obliged to change his skin he does not venture to leave his old coat lying around. The moment he takes it off he eats it.

Surprise!

Mr. and Mrs. F. J. Quirk entertained Mrs. Charles Burke at their home on Hawthorne Ave., Portland, Ore. The affair was informal and impromptu. Mrs. Burke lost control of her car while turning to look behind her and stepped on the gas instead of the brake. As a result the machine climbed upon the Quirks' front porch at high speed.

Crab's Keen Watch for Enemies.

The fiddler crabs of the Philippines have remarkably sharp eyes, and may be seen standing for perhaps fifteen minutes at a time quite still, scanning the landscape for signs of their chief enemies—snakes, skunks, frogs, toads and fishes. Noise will not distract them, but they beat a hasty retreat home if anything moves near, or boldly stand and frantically wave the big claw, being particularly angry if a lady crab comes near.

Oil Fly Ravages Italy.

Italy's plague is the oil fly, which devastates the olive yards. In southern Italy this insect has done \$25,000,000 worth of damage within the last 12 years.

"Gusher" Day Never Lasts. There is a certain class of people with whom the gushing person who gets a hearing, but this is mostly because that particular class enjoys flattery, an art in which the gusher is particularly skillful. But, taken on the whole, human nature appreciates frankness and sincerity. And these two qualities give to the eye an expression which is not to be overlooked in the seeker after beauty.

THIS BRIGHT BABY GIRL

Brought Joy to Home. Mrs. Lydia E. Pinkham's Vegetable Compound

Secotia, Pa.: "I never felt like working, and when I would try to do any thing, I would get so fatigued that I would drag around all day long. At times I would have terrible pains and was unable to do any thing. I was in this condition about a year when I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers. I bought a bottle and took it. I heard different women say it was good for women's troubles, and my aunt thought it would help me, so I had hoped her. So I took the Vegetable Compound and it brought things right, and I was in good shape before I knew it. I believe it helped at birth, too, as with both my other babies I suffered a great deal more than with this one. I thank you for this medicine for the good your medicine has done me. It has surely made our home a happier one."—Mrs. ROBERT PRICE, Secotia, Pa.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 95 out of every 100 report they were benefited by its use.

Now—Thousands in Use

Now, thousands of Rollin cars have been in the hands of critical users for nearly a year.

The record is astonishing!

This car has performed way beyond all expectations and more than bears out every single claim originally made for this remarkable automobile.

Rollin claimed more up-to-dateness—and gave it to you!

Rollin claimed greater economy—and gave it to you!

Rollin claimed easier riding qualities—and gave them to you!

Rollin claimed vibration elimination—and gave it to you!

Unless you select the advanced Rollin—you cannot get all of the fore-mentioned modern qualities.

No other car in the world, at any price, has the following combination of advanced features:

European Type Motor
4-Bearing Crankshaft
Force-feed Lubrication,
25 to 30 Miles Per Gallon of Gasoline
Balloons Tires
4-Wheel Brakes
Transverse Rear Spring

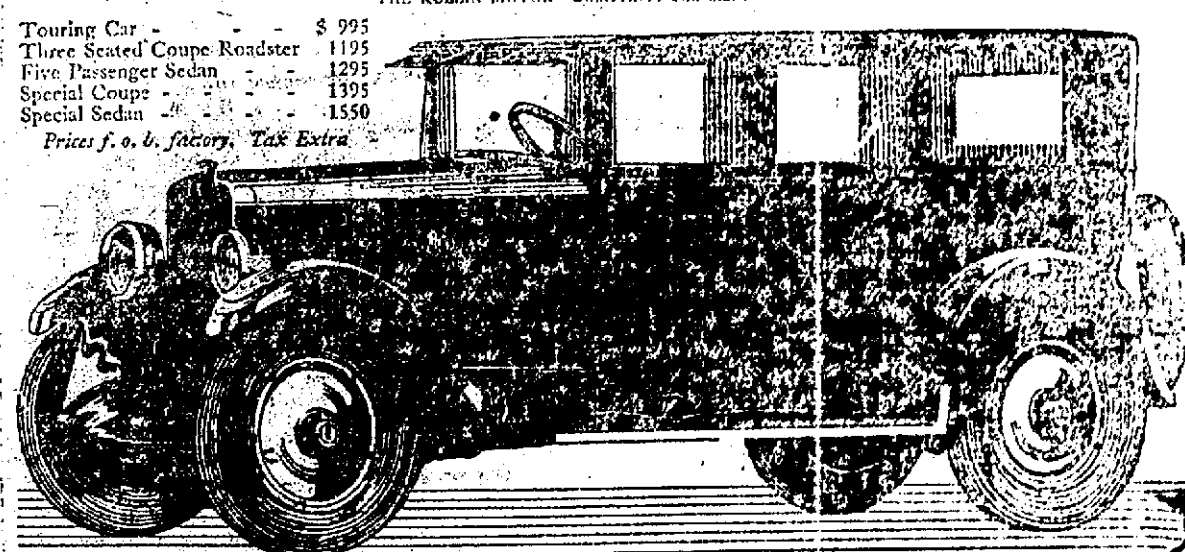

Remember this car was designed and is being manufactured by Rollin White—one of the industry's foremost automotive engineers.

ODDS AND ENDS AND THINGS

By J. D. C.

Fire Prevention Week started yesterday and it is observed by schools, churches, fire departments, chamber of commerce, railroads and other organizations throughout the country. The week pivots around Oct. 9, the fifty-third anniversary of the great Chicago fire. In each of the last three years, American property worth half a billion dollars has been consumed by fire and about 15,000 persons have been burned to death. Most of these victims were women and children.

President C. H. Markham of the Illinois Central Railroad in an address at the National Bankers' Convention in Chicago last week, said the railroads were "America's greatest employers." He said almost as fast as they took in the billions they had to pass them out, thus irrigating most of the big industries in the country.

For instance, in wages that largely are passed on to the retail trade, the railroads spend directly \$3,000,000,000 a year, almost as much as is handed out by the whole United States government. In buying materials, they spend \$2,000,000,000 a year, at least \$1,000,000,000 of which must be for other wages and therefore must bring additional trade to retailers.

For these giant industries, which are at the foundation of national prosperity, the railroads are as important as they are for the retail trade. In a year they buy and use \$600,000,000 worth of fuel, mostly coal. They purchase nearly a third of the iron and steel output of the United States. Coal and iron and steel and lumber—any business man can figure for himself what an industry does for the country when it uses such colossal amounts of these four fundamental products.

In the second place, Mr. Markham said that, besides stimulating production in other lines, the railroads produce—just as the farmers produce—as the farm horses that draw the harvests from the fields to the barns, or from the barns to the elevators or freight houses.

It is interesting to know that in the convening of last week's Criminal Court Judge Chase has assigned Clearfield county law violators to the parole system totaling more than \$25,000. Under the parole system enforced by Judge Chase it is expected that at least 80 per cent of these fines would be collected within the coming two months.

There are just 66 prisoners in the Clearfield county jail at present. It is not a night to see this army of law violators in the jail. The minimum penalty is to be received their daily dose of soup, beans and starch.

One fourth of the total number of hunters expected to take out hunting licenses in Clearfield county this year had appeared at the County Treasurer's office up to noon today and took out the coveted permits. The total number of licenses issued up to this time was 3700. Each hunter is asked to put up \$1.25 for the privilege of hunting during the six weeks extending from November 1st, when the fall game season starts, until Dec. 15th, when the hunting season closes on all game.

Moonshining and bootlegging is no light or gainful occupation—for a while—and evidently appeals to those who engage therein—until they get caught—but both branches of this illicit trade are fast becoming extra hazardous in Clearfield county, judging alone by a perusal of Criminal Court records of the county the past few months.

Clearfield county people, or many of them at least, are a bibulous lot, and there would not be a market for the wares of moonshiner and bootlegger. In consequence thereof the number of illicit liquor peddlers getting into the criminal courts this winter appears to be increasing, rather than diminishing, although exceptional activity on the part of the local authorities in the eastern and southern sections of the county has, since May last, helped the DuBois end in filling the jail with liquor law violators.

Since May term of Criminal Court more than fifty liquor law violators were arrested and placed under bail for court. The majority of these cases were disposed of at September term of Criminal Court, together with a number of other cases continued from May term of this year. A check-up or summary of the work of September term of Criminal Court shows that 78 liquor law violators were disposed of, in disposing of these illicit vendors that which more than intoxicated, Judge Chase sent 42 of them to jail,

their sentences totaling 14 years and 10 days. The fines assessed in conjunction with the jail sentences, and where a jail sentence was not imposed on account of the minor grade of the crime or extenuating circumstances, amount to \$14,110, all of which, under Judge Chase's parole system, will have to be paid before the offender in each case is allowed to get out of the clutches of the law.

Yes, moonshining and bootlegging has its uncertainties and disappointments somewhat akin to the ups and downs of an honest man's life, plus the jail sentence.

In the Courts

Three suits growing out of appeals from the award of viewers to assess the damages to as many different farms in Bloom township by the building of the Grampian-DuBois state road, and scheduled for trial this week were all continued on a point raised by County Solicitor A. M. Liveright, who appeared on behalf of the county to defend the suits. It developed during the taking of testimony in the case of Warren Charles that some change had been made in the plans after the work was started and the cases were all held up until the responsibility for such change can be determined by a perusal of the St. to Highway Department files at Harrisburg.

The plaintiffs were Warren Charles, Sidney Smith and Joseph Korb.

Two courts are working today. Judge Chase, in the court room, is hearing the case of Daniel Bauman vs. the Robinson Coal Company and A. J. Peterson. Suit is brought in this case to collect minimum royalty at the "Rottentop" mine above O'Shanter. The attorneys are Kramer & Kramer for plaintiff and Liveright & Chase and Miller & Hartwick for defendants.

Judge Reed is holding his court in the Arbitration Room and is hearing the case of Joseph Cairns against Spencer Bros. of DuBois. This suit is the result of an accident which occurred on the state road at Salem, near DuBois, in November, 1920, and in which young Cairns was run over by a truck owned by the defendants and had his leg broken in three places, besides receiving other injuries. The attorneys involved are Bell & Blockbank for the plaintiff and Pentz & Pentz for the defendants.

ADVERTISING BY RADIO GETS KNOCK

(Continued from Page One.)

recommendations for an official study of non radio interference problems.

A debate was anticipated on the assignment of bands in the high frequency class, from one to ten meters employed for point to point broadcasting. The technique of use of short wave lengths has been developed since the 1923 conference. Individual communication, transmission of news between branches of

ECZEMA

You will be compelled to admit that the results of S.S.S. are really amazing!

MANY people imagine that eczema or tetter needs only some external application on the skin in order to get relief. This is because the attention of the sufferer is so violently directed to the intense burning and itching which accompanies this disease. Try as they may—permanent relief will never be theirs until the disease laden blood is thoroughly cleansed.

We know there is one thing that cures eczema and that is more red-blood-cells! S.S.S. builds them by the million! You can increase your red-blood-cells to the point where it is practically impossible for eczema to exist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it. Skin eruptions, eczema, with all its fiery, skin digging torture, and its soul-tearing, unrelenting itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting giants of Nature! S.S.S. builds them by the million! It has been doing it since 1826.

S.S.S. is one of the greatest blood-cell builders, blood-cleansers and body strengtheners known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. S.S.S. contains only vegetable medicinal ingredients. Because S.S.S. does build red-blood-cells, it cures eczema, clears the skin, builds firm flesh, fills out hollow cheeks, and gives you that more up and going appearance.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Births

Born, to Mr. and Mrs. Isaac H. Robinson, at the Clearfield Hospital on Thursday last an 11lb. son. Mother and son are getting along finely and so is Ike, who is tickled to death over the new arrival.

Born, to Mr. and Mrs. A. Wright Bigler at their home on South Front street Monday morning, a daughter. The new arrival makes "two pair" in the Bigler family "hand."

EMIGH MAN DIES HERE

Harry B. Wyse, of Emigh, Pa., died in Clearfield, at the Bowles Hospital, after a short illness, October 4, at 1:30 a. m. He had been operated on for appendicitis and other ailments, but was unable to survive the ordeal. He was a member of a highly esteemed family, well known here and elsewhere. He leaves a wife, "Zoe" by name, a mother, Mrs. Jane Wyse of Fagardman, Pa., four sisters and four brothers as follows: Mrs. F. H. Brennan, Bradford, Pa.; Mrs. A. G. Robinson, Boardman; Mrs. George Allen, Force; Mrs. John Weiss, Lockport Station; J. B. Wyse, Detroit; Robert Wyse, DuBois; James Wyse, Summerville; and William Wyse, Emigh.

The many friends of the family deeply regret the unfortunate happening, and hereby express their sympathy.

The funeral will take place today, (Tuesday, October 7) from his late home, and interment will be at North Barnsboro cemetery.

He was a member of the K. K. K. and they will officiate at the services. With undertaker McMillen in charge.

syndicates of related newspapers, were time and many other uses of technical character come in the short wave class.

"The basis of a practical solution of the ever present interference problem is a sound allocation of frequency or wave lengths" Dr George K. Boigess, director of the United States Bureau of Standards told the conference.

WATCH FOR THIS FORD COUPE

A new Ford coupe, bearing license No. 936-493, was stolen from front of the Presbyterian Church at Clearfield on Sunday evening. Any information will be thankfully received Telephone The Progress office. The coupe was the property of Alex Hynd of Old Town Road.

To a Lady

Who refuses to use clay

By Edna Wallace Hopper

A lady writes me that my beauty helps have brought her wonderful results, but she adds, "It is too much trouble to use clay!"

Too much trouble! In my stage work and in these efforts to help women I work 15 hours a day. Yet I would rather make three meals than miss my clay.

Too much trouble! Yet see what clay has done for me. Mine is a grand Edna Wallare mother's age, yet I enjoy a Hopper debutante's complexion.

Let me send you a test of my White Youth Clay. It is not like the crude and muddy clays so many have employed. It is white, refined and dainty—the last word in facial clays. And it combines in one product many superlative helps.

My Youth Clay purges the skin of all that clogs and mars it. It removes the causes of blackheads and blemishes. It brings the blood to the skin to nourish and revive it. The result is a rosy after glow which amazes and delights. It firms the skin, combats lines and wrinkles, reduces enlarged pores, eliminates surplus oil.

Many women seem to drop ten years with one application of this clay. To countless women it is bringing priceless benefits—new beauty and new youth. Are such results not worth to you a few minutes twice a week?

Clay is a beautiful essential. Famous beauties have for ages used it. No woman can hope to look her best without it, or to keep her youth as I have. You can recognize clay users in every circle by their beautiful complexions.

Mine is a super-clay—a new type clay—based on 20 years of scientific study. I have placed it with all drug stores, all toilet counters, so you can get it. The cost is 50 cents and \$1. You will thank me for it—always—when you learn what it means to you. I will gladly mail sample if you mail this coupon.

Trial Tube Free

UNEMPLOYMENT

Unemployment is not an occasional thing. It is an ever-present fact. The Russell Sage Foundation finds that even in the best times there is a good deal of it, and that, taking good and bad times together, there is an average of several million men and women always out of work—10 or 12 per cent of the total number of workers.

The "seasonable occupations" are responsible for a good deal of it. Every year there are 1,000,000 to 6,000,000 persons out of work for weeks at a time, and sometimes for months. Then there come years now and then when many millions of people, in many industries, are unemployed for so long that they almost despair of ever finding jobs again and getting their debts paid.

This is the great tragedy of modern industry. Along with all its blessings it brings that tremendous problem of unemployment. Industry demands specialization of jobs and the assembling of many workers in small areas, and when the factory shuts down there is often nothing else the workers can do to earn a living. Many industries are still largely at the mercy of the weather, or of a seasonal demand, and cannot adjust themselves to other lines during the off-season.

Thus millions of workers are kept poor, because they are not allowed by this strange industrial system to work steadily. And thus what they produce costs the consuming public more than it would if they could work steadily through the year, and year after year.

Society as a whole has to support its idle members somehow or other, and gets ahead slowly just because they are idle. This is perhaps the biggest problem of statesmanship in the world.

INVESTMENT EDUCATION

The Investment Bankers' Association of America has decided to embark upon a tremendous advertising campaign costing approximately a quarter of a million dollars. By this means the bankers hope to make more widely known the difference between good and bad securities and the value of sound investments. It is to be a campaign of education against the fake promoter.

The carping critic may say, truly enough, that the bankers stand to gain largely from this campaign and that it is therefore not a wholly altruistic plan. But what of it? If the bankers do gain by attracting more patrons to their banks and to the sound investments they offer, the patrons gain, too. If one has \$1,000 to invest, how much better to spend it through safe and honest channels where both parties to the investment will profit than to spend it through unsafe channels where only the fake promoter profits!

Education of the public in this regard has long been recognized as almost the only way to protect the gullible throng from their own foolishness. Federal authorities have pointed out again and again that postal officials are handicapped in dealing with fraudulent schemes to get people's money because often they cannot detect the fraud nor act until after money has been lost and complaint made by the loser. Effective blue sky laws will help a great deal. But they alone cannot do the work.

For that matter, neither will education and publicity do it. All together, however, should make a big improvement and reduce considerably the 500 to 1,000 million dollars now estimated as lost to the blue sky promoter annually.

IF WE COULD PERSUADE

every person in this community to take ten per cent of his salary every pay day and put it to work in an interest bearing account, we would revolutionize the habits of those whose carelessness is depriving them of prosperity.

Many people, however, will go on saving just what little is left at the end of the month, or nothing at all. But perhaps you will be one of those who will profit by the suggestion to pay yourself first.

One dollar will start your prosperity account at this bank.

CLEARFIELD TRUST CO.

Progress Editorials for Women

THE PERSONAL TOUCH

By FLORENCE DAVIES

A friend just back from a visit to what some people are pleased to call Henry Ford's town imagines she has a little joke on Henry.

"It is queer," she mused, "but I visited a woman whose windows look down on the rolling lawns of the younger Ford's gardens. Now, it seems that young Mr. Ford is president of the company that makes tractors. But there is his gardens were two men laboriously pulling rakes over the turf in the same way that lawns were raked years ago. I guess we haven't progressed so fast, after all," laughed this woman. "At least when Henry wants a lovely lawn he can't beat the hard method with all his mighty inventions which have put a sand-acre ranches into cultivation in a jiffy."

The woman, of course, was right. A tractor that would have cultivated the ground in a two mile furrow in an hour would have ruined the velvety smoothness of that lawn, which only goes to show that science hasn't quite yet found a way to take the place of the human hand.

Some people worry a good deal about living in a machine-made world. They may save their worry. There will never come a time when the human touch won't have a place in the world, whether it's a matter of raking lawns or running factories.

Machines, it is true, do much of the work which was once done by hand. But every machine must be manned

by a skilled worker. With all the machines, the demand for the personal touch is by no means exhausted. In every business and factory there is a place for more people who think and for more people who add the individual touch.

The chances are that it will be a good many centuries before our best lawns are perfected in any but the old fashioned way, planted and raked and soved by gardeners who work with care.

Machinery, all of it, whether it's the kind that runs our presses and pulls our trains, or merely the kind that every woman has in her kitchen, is only the servant of us all, and will never take the place of individual effort.

Even the most perfect talking motion-picture machine which could ever be invented will always have a little to be desired, "and it is just that little which counts," says a writer in a current magazine. "Booth in Hamlet, Mrs. Siddons in Lady MacBeth—they simply can't be transmitted by a machine," says this observer. "For what makes drama real is the slight variation that comes with each performance."

It is a comforting thought, this, to the human race. With all our imperfections, with all our halting effort, the world always needs just the particular thing which we as individuals can do. No machine, however skillful or magical, can ever take the place of the personal touch which you and I can give in our chosen fields of endeavor.

The Frost Is On the Pumpkin and the Mud Is On the Boat!

The Atlantic dealer's chart, carefully worked out by Atlantic engineers, assures you the proper type of oil for your car—Atlantic Medium, Heavy, Special Heavy or Polarine.

Up long, steep hills in second gear . . .

Watch your motor oil!

It's during those occasional emergencies when you put your motor to the supreme test that the danger from low-heat-resisting oil is greatest.

Hill climbing, for instance. The high speed of the motor when in the lower gears, the throttle wide open, several thousand hot, heavy charges of gasoline burning per minute—these often spell ruin or virtual destruction to ordinary motor oils.

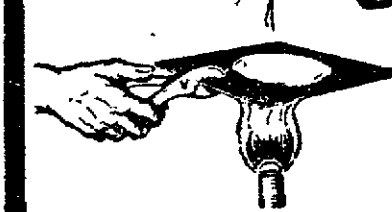

Why risk scored cylinders, burnt-out bearings, or power-destroying piston wear? Put your motor under the protection of high-heat-resisting Atlantic Motor Oil. It won't break down! It holds its "body." Extreme motor heat or heavy bearing pressure can't drive Atlantic from the friction surfaces.

High-heat-resisting Atlantic is a recent achievement of the Atlantic refineries.

ATLANTIC MOTOR OIL

Keeps Upkeep Down

Clearfielders Generous In Buying Tags to Help Destitute Children

Clearfield folk opened their hearts and purses on Saturday last to help care for the destitute women with children in care of the Volunteers of America by contributing the gener-

ous sum of \$273.64 to that worthy cause. Every one connected with the affair was well pleased and deeply grateful to all who in any way helped make the day successful. A statement issued by the organization's representative says: "To the city officials, the newspapers, the merchants who furnish the 'incentive' for the children's efforts as well as to Mrs. C. V. Steele's capable leader-

ship full credit should be given, neither must the public's generosity in patronizing the youthful workers be omitted.

From early in the morning until late in the afternoon the boys and girls worked faithfully and hard.

At the close of the contest it was found that Hazel Mitchell was entitled to first prize, having collected \$28.14. The second was won by Marion Mur-

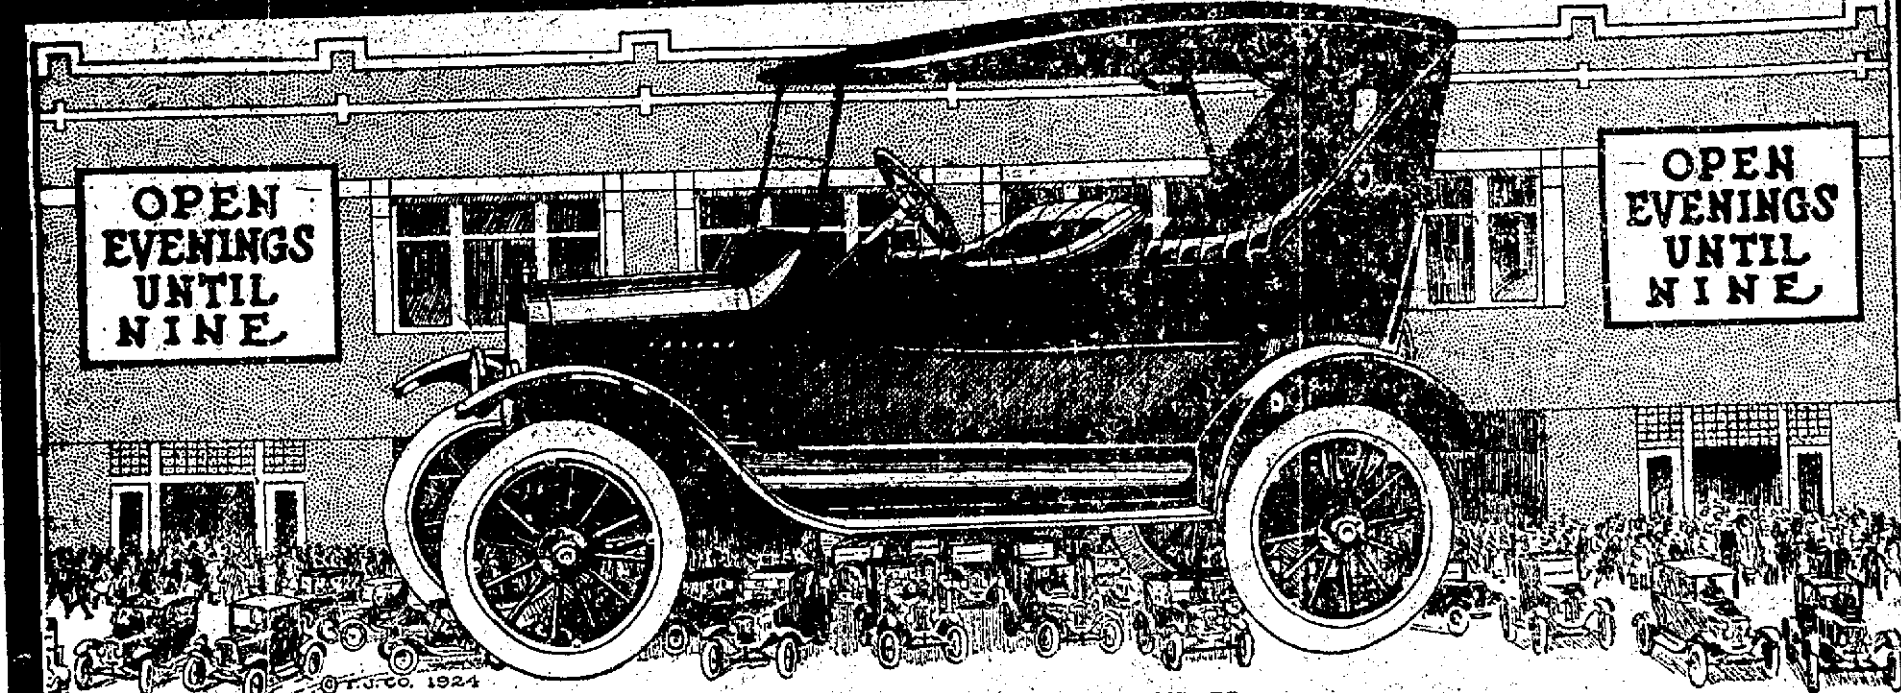

phy who had \$27.51. Betty Glover had \$24.50 and received the third prize. The fourth and fifth were won by Isabel Reed and Emily Rowe. All the other children entitled to them were made happy with movie passes.

Clean House

This Fall With a

Now that the leaves are beginning to fall, your thoughts naturally turn to annual Fall housecleaning with its attendant cleaning of rugs and floors.

It will be much easier for you to do this part of the cleaning with a ROYAL Electric Suction Cleaner.

The ROYAL, with its strong suction, goes right after the dirt and the suction is strong enough to take every particle of dust right out of the thickest pile rugs. Yet it is not too strong to injure them.

We are so sure that your housecleaning will be done easier with a ROYAL that we will gladly come to your home and show you all the details of the working of this wonderful electric cleaner.

Electric Supply Co.

Hallowe'en Costumes

The costumes we have been looking for arrived on Saturday and they are clever as they can be. Made so they will stand the hilarity of your party, in colors that are particularly pertinent to the occasion, they are really good.

They are being sold so cheaply that you can't afford to take the time to make your own when you can get these. The quantity is more or less limited so we would suggest that you come in soon for yours.

KURTZ STATIONERY STORE

Why it Will Pay You to Trade in Clearfield

The Realest Battery For Car Or Radio

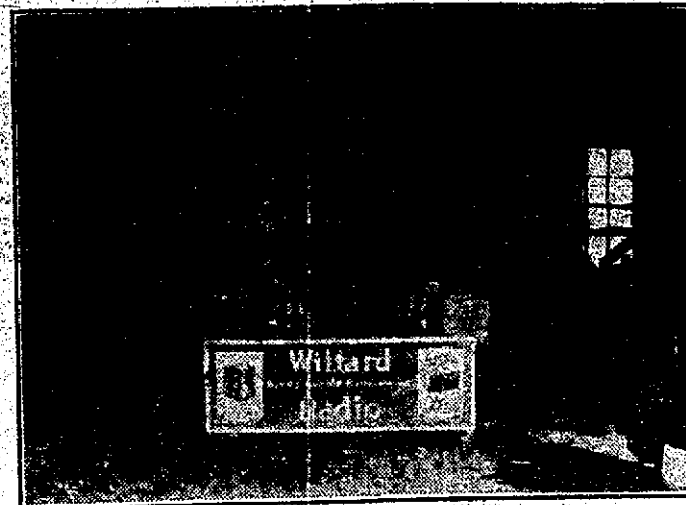

There's a vast difference between a battery that simply gets you there and that's all and the battery that has reserve power enough to give you that extra kick that is fine to have but you really don't need.

We've a WILLARD battery for every car, a WILLARD battery for every radio. And we've a service for battery users that you'll find serves you well in the pinches.

A CITY OF UP-TO-DATE STORES WHERE

YOU GET THE MOST FOR YOUR MONEY!

The Progressive Business Firms whose ads. appear on this page have combined in presenting a series of articles designed to show the most skeptical of persons that it is to their best advantage at all times to Trade in Clearfield. All of the firms here represented have your interests at heart as well as their own and we sincerely hope these articles may be the means of a better understanding between the merchants and the public.

Why It Will Pay You To Trade In Clearfield

(Continued from Yesterday.)

banks, newspapers and all local businesses and each and every individual are all interdependent. The success of Clearfield rests on community of interests and the whole city's prosperity depends on the money made and spent right here.

Our commercial and civic organizations, our merchants and manufacturers and our religious organizations are trying to build conditions that will make patrons for our city, and one of the greatest problems arising is how to make conditions that will make permanent patrons for the things which our city has to offer. People are not drawn to cities by accident. Something must be there to attract them. So it is in the matter of buying in Clearfield. It must be made attractive.

Our people generally recognize that we have one of the best school systems in the state; that we have transportation facilities unsurpassed by few other towns in the state; that we have very favorable industrial conditions; that we have fine churches with wide awake church societies; that we have cheap fuel and desirable labor conditions; that we have a good home town and a real civic spirit behind it; but how many of our people realize that WE HAVE HOME

Councilmen Vote To Discontinue Work

(Continued from Page One.)

The "Main street" of the town, is the only street in the town on which there is no drain, its absence working a real hardship on pedestrians on this street all fall and spring, to say nothing of the inconvenience to the people living in the Fourth street section.

Want Sidewalks Built

The Sidewalk Committee on complaint from people living in the neighborhood was directed to have a sidewalk built along the property of Albert Derrick on Elwood avenue. Notices to build walks were ordered served on the following property owners: West 3rd avenue, Mrs. Christina Herrington, Mrs. Dunlap and Paul Stauffer, Park avenue; John Noll and Verne Caldwell.

John M. Bain was present and asked for sidewalk line at his property on Witmer street. He asked that repairs be made to the walks in front of the Lannon property on Witmer street and the Powell and Cowdick properties on South Second street that water might not be allowed to main on the walk.

Chairman Beahan of Highway Department recommended that P. R. R. be asked to place a crossing over their tracks at the alley leading from South Second to South Fourth street between Spruce street and Park avenue for use of the Clearfield Machine Company. The Secretary was directed to request that the crossing be placed at once.

Adopt Boulevard Lighting

Company for better lighting of the town, which plan calls for a rearrangement of all the present lights. The substitution of the present lights for a system of 100 to 400 candle power incandescents. The new system embraces the ornamental boulevard lighting system for the business district or centre of town, which is contingent upon the starting property owners paying for the installation of the wires and poles for same. This installation will cost approximately \$1.90 per foot. If fifty-one per cent of the abutting property owners agree to the plan Council will then be asked to pass an Ordinance levying or assessing the cost of the installation of the lighting system against all the properties on the streets affected according to their frontage. The new plan will cost the taxpayers \$8126.50 per year or an increase over present lighting cost of \$2217.30 and will necessitate the addition of at least one mile to the light tax.

Garbage Dump Complaint

Secretary Gaudin of the Board of Health presented complaint of people residing in the neighborhood against the condition of the borough

garbage dump on Guinea Hill. They claim the incinerator is too small and advantage is taken of the place by people hauling garbage and rubbish. The matter was turned over to the Property Committee with directions to prepare a schedule of hours for burning, enlarge facilities for burning and otherwise clean the place up. band on next Tuesday evening.

Will Dance on New Street

The Ladies Auxiliary to the American Legion Band asked for and were given permission to block off the newly completed block on Locust street between Third and Fourth streets, for the purpose of holding a street dance for the benefit of the band.

Asked to Take Over Streets

Plan of the streets and alleys in the West Third avenue section recently laid out in lots and now being rapidly built up was presented to Council for adoption of said streets and alleys and same was referred to

the Highway Department for report at next meeting.

Dr. F. D. Leopold was present and asked council to extend stone wall across Walnut street adjoining his property as a measure designed to beautify the river front in that section. Dr. Leopold is completing a similar wall along his 400 foot frontage and this wall will give opportunity to fill in and terrace the river bank and will be a decided improvement. The borough's share of the wall would cost about \$50 and the matter of its construction was referred to the Highway Department.

Chairman Beahan reported the paving of the alleys between Pine and Reed streets in First Ward and river wall about completed and said when these two projects were finished during the present week the activities of the Highway Department on new construction would cease for the winter.

Yesterday's Series Game Ended In 6 to 4 Victory For McGraw's Giants

Polo Grounds, New York, Oct. 6.—In a veritable parade of pitchers the Giants contrived to edge under the wire with a 6 to 4 decision over the Senators in the third game of the world's series this afternoon, a belated Washington rally, in the ninth inning being nipped by John Watson's worthy rescue pitching. Sparkling fielding by Frisch saved the Giants on several occasions, the Giant second Luseman thrice robbing Goslin of base hits.

It was New York's first presentation of the series of 1924 and a capacity crowd of nearly 50,000 viewed the proceedings with satisfaction. Strange to relate they cheered for both clubs with impartial fervor. The victory gave the Giants the

edge on the series by two games to one.

Frisch raced far into center field to snare Goslin's fly with Rice on first base in the fourth then he repeated the performance at Goslin's expense in the fifth.

Two innings later Frisch went over behind first base for Goslin's smash with two men on.

In all the Giants used four pitchers and the Senators the same. Ryan did

well for a while after relieving McQuillan in the fourth but blew wide open in the ninth. Harris got a single to open the ninth on a fly ball that Kelly, Jackson and Wilson allowed to fall safe at their feet. Goslin and Judge followed with hits, filling the bases. Whereupon McGraw waved Ryan out of the picture in favor of Johnson. The latter walked Blauvelt in a run and then walked to

the cros house at McGraw's suggestion. Watson then came on and Miller on a foul to Lindstrom caused Ruel to force Goslin at third in the farewell out.

Misses Ella and Gertrude Ardary of Clearfield, and Mr. and Mrs. Reuben Bonsall of Curwensville, spent Sunday at the home of Emory Hummel.

Curwensville's Own Column

Harry Ammerman, of Phillipsburg, came over to Curwensville last Saturday to encourage and cheer his football team on to victory, and to call on his mother and other relatives. Mrs. Cecelia Ballute accompanied him to the mountain and spent the Sabbath day with her sister, Mrs. Ammerman.

The Yellow Dogs had intended to go over to DuBois last evening and run up another herd of mongrels for their K-9 Kennel. But the dog was not just right, so the trip over the mountain was postponed for a few nights longer.

Street Commissioner Dale with his crew of men have been going over the cracks and crevices with a tar machine.

Mrs. Edith Weigle of Harrisburg, Pa. Mrs. Lola Lafferty, of Philadelphia, Pa., are visiting friends in town. Mrs. Weigle is a daughter of the late Hudson Lytle, formerly of this place, and for some years has been a teacher in the Curwensville public schools.

E. T. Dehner, junior partner in the Dehner Brothers store, returned to town after spending four or five days in western cities on a full buying expedition.

Levi Weber, of Bloom township, a former farmer of that section, was taken to the Rowles hospital at Clearfield the other day for medical treatment.

Last Saturday was "tag day" in town, and about half of our population was out and as full of tag as a dog with a hide full of tag. Judging from the report, yesterday did some business, until the football game, when it was all over with the kiddies.

Robert and wife, of Meriden, Conn., are in Curwensville visiting. He is a son of Mr. T. J. Robinson, of Clearfield street, and a former resident of Curwensville. Robert was the acting superintendent of the old Bailey along with his father, who operated in all glory and honor. Mrs. Robinson is a daughter of Mr. Robinson.

The new concrete Anderson creek bridge has been wide open so far as traffic is concerned, ever since the yellow took down the barriers a week ago. The bridge was not to have been formally opened until about the 8th of the present month, but that does not seem to make any difference with the fellows who don't want to ford the creek any longer. It is not possible that the work on the structure has been interrupted to any extent by using it a little ahead of time.

The Clearfield League of the M. E. Church will hold an entertainment in the Adel Sunday School room on Tuesday evening, October 8th, at 8 o'clock.

o'clock. The program will consist of a short play entitled "Who's the Boss?", recitations and musical numbers. Adults 15c admission, children 10c.

"Heart Tag" day receipts when checked up by Miss Carrie B. Dyer, who took charge of the Volunteers of America Tag Day held here on Saturday last, totaled the sum of \$71.90. The children worked faithfully from early in the morning until the close and those interested in the affair were deeply grateful to all who helped in any way to make the enterprise successful.

At the close of the "contest" it was found that Margaret Ardary was entitled to the first prize, having secured for her tags \$7.44. The second was won by Dick Daugherty, who had \$5.76. The third winner was Sarah King, with \$5.01. The fourth prize was won by Marie Weber who had \$1.38. All the other children entitled to receive them were made happy with movie passes.

BIG RED MEN HERE TONIGHT

The local Red Men will stage a smoker and booster meeting at their lodge rooms in the Mechanics Building this evening at 8 o'clock.

Great Sachem McQuaite, of Reading and Junior Sagamore Benton, of Williamsport will be present and address the meeting. All Red Men are urged to be present.

MCADOO CONVALESCING

Baltimore, Md., Oct. 1 (INS.)—William Gibbs McAdoo, former Secretary of the Treasury, is rapidly convalescing at Johns Hopkins Hospital after an operation to remove gravel from his bladder.

666

is a Prescription for

Colds, Grippe, Dengue Fever, Constipation, Bilious Headaches and Malarial Fever.

SPORTS

McTIGUE MAY BE MATCHED WITH TUNNEY

New York, Oct. 7. (INS.)—Mike McTigue, world's light heavyweight champion, will apply today for a license to box in New York, according to reports in circulation. If application is made, McTigue will be ordered to accept the challenge of Gene Tunney, American champion of the division.

ZACHARY GIVEN THE WIN

New York, Oct. 7. (INS.)—Because of a reversed decision by the official scorers, Zachary and not Marberry gets credit for winning the second game of the world's series for Washington on Sunday.

Marberry relieved Zachary with the score tied in the ninth inning and fanned Jackson. The Senators won out in their half. After a conference the scorers decided that Zachary should get credit for the victory because he pitched eight and two-thirds innings.

WHITE SOX WIN FOR 10TH TIME

Chicago, Oct. 7. (INS.)—For the tenth time in 13 years the White Sox have demonstrated their superiority over their National League confederates by emerging victorious in the annual city series between the two teams. This year, they brought home the fourth game of the series by defeating the Cubs 5 to 3 at their home park yesterday. The Cubs had but two games to their credit.

NO CLUE TO SAFE BLOWERS

Despite the fact that Sheriff Lowelly, Detective Eppers and State Police have been carefully investigating the robbery of the Boardman postoffice ever since its happening became known, positively no clue to the perpetrators of the robbery have been secured.

It is the belief of the authorities that the work was done by the same gang of crooks that robbed a drug store and pool room at Oscola on the Friday evening previous.

We have since learned that the automobile party which accosted Rev. Leith at Boardman Sunday evening were four young people who were enroute to their home at Madera where they were endeavoring to find the road from Boardman to their home, having missed the road in the night.

STATE CONVENTION OF W. C. T. U. WILL BE HELD OCT. 14-17 AT PITTSBURG, PA.

Allegheny county will be hostess to the Fifth Annual Convention of the Women's Christian Temperance Union of Pennsylvania. This Convention which is the Jubilee meeting of the organization, will be held in the Bellefield Presbyterian Church, corner of Fifth and Bellefield Avenues, October 14-17. This is the fifth time in the history of the organization that the Convention has been held in Allegheny county.

For eighteen years Mrs. Ella M. George has led the White Ribbon Hosts and presided at the Annual Gatherings. Many are looking forward to this Jubilee Celebration with much pleasure. The program will be of unusual interest this year and some who joined the hosts many years ago and helped in the Crusade, will be present.

On Monday the 13th, the State Officers, Superintendents and County Presidents will arrive in the City and Monday evening and Tuesday will be given over to Central and Executive Committee meetings, and Official Board meetings. On Monday evening there will also be a Superintendents Luncheon or Get-Together meeting at which time they will discuss in what way they can better their work. On Tuesday evening there will be the Convention Banquet at which Hon. Clyde Kelly will be one of the speakers. A Diamond Medal Contest will be held on Wednesday evening in which contestants from a number of counties will take part.

Hon. John G. Cooper, member of Congress from Ohio, will address the Convention on Thursday evening. Delegates from every part of the State will attend this Convention for every county in the State is organized. Delegates from Clearfield county Miss LeRue Chorpemning, Clearfield; Mrs.

Lillian N. Trezise and Mrs. G. C. Sink, DuBois; Mrs. Elizabeth Gates and Mrs. Nora Caldwell, Curwensville.

MRS. AGNES FIGGINS DIES

Mrs. Agnes Figgins, of State Center, Iowa, sister of Mrs. J. B. Hummel, East End, passed away at the Hummel home on Sunday morning at 7:40 o'clock after a short illness.

Mrs. Figgins had come east to visit her sister and with Mrs. Hummel had gone to Hummelstown, Lebanon county, to visit their younger brother. While there Mrs. Figgins was taken very sick and they were forced to return home on Tuesday last. Her illness was due to serious liver affection, which failed to respond to medical treatment.

The deceased, who was a member of the Methodist Episcopal church, was the widow of J. F. Figgins, who passed to that better world twenty-two years ago. She leaves to mourn the loss of a loving and devoted mother two sons and one daughter: James and Daniel W. Figgins, of State Center, Iowa and Mrs. (Dr.) F. Smith, of Lacey, Iowa. Two sisters and three brothers also survive as follows: Mrs. B. J. Hummel of Clearfield; Mrs. J. F. Enders of Portland, Tenn.; J. F. Yingat, of Seattle, Wash.; James Yingat, of Hummelstown, Pa.; and George Yingat, of State Center, Iowa. She is also survived by two step brothers, Harvey and Grant of Harrisburg, Pa.

Brief funeral services were held at the Hummel home today by Rev. Alban, of the U. B. church, after which the remains were placed on the p. m. Pennsylvania train for her home in Iowa. Funeral service and burial will take place at State Center on Wednesday afternoon.

Consolation. Many a fellow who is always willing because all his friends have forsaken him should be kindly glad his friends were wise enough to forsake him in time to avoid being here with him. Sing Sing Star-Philly.

Constipation is the arch-enemy of Health

BEECHAM'S PILLS

Conquer the enemy of constipation and you rout a whole army of physical foes, including indigestion, biliousness, sick headache, sleeplessness and nervous dyspepsia. Beecham's Pills have been a worldwide favorite laxative for over 80 years. They go straight to the cause of many ills and remove it. They act promptly, pleasantly and surely. Purely vegetable, harmless, non-habit-forming. These time-tested pills strengthen the stomach, stimulate the liver and

ANATOLE FRANCE IN VERY POOR HEALTH

Tours, France, Oct. 17 (INS.)—Anatole France, famous essayist, who is critically ill, declined still further today.

Dr. Gaudeau, the attending physician, said the patient was growing steadily weaker and that he could hold out only slight hope.

The writer is 81 years of age.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color. These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-go feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. "Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

COLUMBUS DAY

PROGRAM

Monday,

October 13th.

The regular use of PURE-TEST ZINC STEARATE will go far toward keeping the baby happy and smiling.

This pure, delicately-scented dusting powder is absolutely waterproof. It completely prevents the customary irritation of wet diapers.

PURETEST Zinc Stearate possesses real healing, soothing and antiseptic properties. It promptly relieves the irritation of prickly heat and the effects of excessive perspiration.

PURETEST is smooth, white and fluffy.

In Every Medicine Cabinet

there should be kept handy at all times some reliable remedy for dyspepsia, biliousness, nausea, and constipation.

Sodium Phosphate

is thoroughly dependable for this need—a truly efficient liver laxative. Sodium Phosphate effervesces briskly and is more pleasant to take than plain soda phosphate. Let us show you the improved bottle carrying the convenient dose cup.

For Headaches

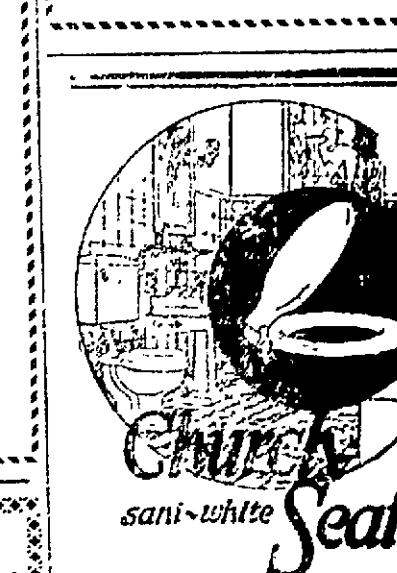

pain, colds, neuralgia pains, etc., we recommend and guarantee

Puretest Aspirin Tablets

They are made from true aspirin and are manufactured under the highest standards of quality. They disintegrate rapidly and act promptly.

Handy metal boxes for the pocket and big economical bottles of 100 tablets for the medicine cabinet.
